PROGRAM HISTORY

Understanding the Program

To understand the Disaster Service Worker Volunteer Program (DSWVP), you must flip your calendar pages back to the early 1940's when our country was involved in World War II. At that time, all counties in California had War Councils. At a later time these War Councils were called Disaster Councils. Disaster Council's came to play a significant role in the development of the DSW Volunteer Program.

California **Emergency** Council / Disaster Councils

The California Emergency Council (CEC) has existed since the early 1900's, and continues to advise the Governor and review preparation for disasters and other emergencies. One of the statutory duties of the California Emergency Council is to approve local Disaster Councils, required by law to be accredited. (Govt. Code, §8612.) Accreditation is necessary in order for the Disaster Council to register disaster service worker volunteers in the DSW Volunteer Program (DSWVP). The DSWVP provides volunteers with Workers' Compensation if they are injured performing disaster service work and, in addition, provides limited immunity from liability.

The War **Powers Act of** 1943 and the California War Council

In 1943, due to concern regarding an invasion along the United States Pacific border, the War Powers Act of 1943 created the California War Council. The Council's first job was to help the city and county defense and local war councils.

The California War Council recognized that because of the war effort, human resources in California were inadequate to address the problems of mass attack or natural disasters. As a result, local war councils were forced to recruit numerous civilian volunteers. Men and women from all walks of life who were willing to train for hazardous jobs and to be on call at all times. These volunteers were subject to possible safety risks in the performance of emergency duties.

Prior to the War Powers Act, civilian volunteers were not provided any form of compensation if injured during the course of their volunteer duties. In 1942, the State Attorney General issued an opinion that under the California Workmen's Compensation Act (later re-named Workers' Compensation), volunteers injured during civilian defense work were not eligible for compensation. The legal theory was that because these volunteers freely donated their time for the benefit of California citizens without expectation of compensation, they similarly could not expect compensation if they were injured because there was no employment relationship.

Realizing that failure to compensate volunteers for injuries received while volunteering was not conducive to recruitment, the Legislature addressed the problem with the War Powers Act. The Act provided that volunteers might receive the benefits of the State Workmen's Compensation funds if the volunteer was injured in the course of his or her volunteer duty. One requirement of this benefit was that the volunteers must be registered with a local War Council, which in turn must be certified by the California (State) War Council. On June 4, 1943, the California (State) War Council certified all existing War Councils in California as "accredited" for the purpose of qualifying their enrolled Civilian Defense workers for workers' compensation for injuries incurred during the course of volunteer duties.

Workers' Compensation

(later called Disaster Councils), and the availability of Workmen's Compensation, volunteer groups were formed. These volunteers were called into action in many local crises. The California (State) War Council succeeded in establishing the rights of injured volunteers to apply for Worker's Compensation, even though the emergency in which they had acted was not due to enemy action.

Currently, Disaster Service Workers, like their predecessors, the Civilian Defense Workers, provide valuable services during emergencies. Workers' Compensation benefits continue to be provided to registered volunteers who contribute their services to protect health and safety and preserve lives and property of the State. State law now protects volunteers from financial loss resulting from injury, as well as providing them limited immunity from liability in the course of their disaster service duties.

Accredited Disaster Councils

California law requires Disaster Service Workers register with an accredited Disaster Council, the Governor's Office of Emergency Services, or an authorized State agency.

Most cities and all counties in California have established Disaster Councils that are accredited by the California Emergency Council. Affiliation with an accredited Disaster Council and delegated authority from that council are required prior to a jurisdiction administering a disaster service worker volunteer program. (Cal. Code of Regs., Title 19, §2571)

Accreditation **Process**

Accreditation of a Disaster Council must be certified by the California Emergency Council, either directly, during a meeting, or through ratification of the Governor's approval in case the California Emergency Council is not meeting. (Govt. Code, §8581.) Accreditation of a Disaster Council is mandatory in order to register Disaster Service Worker volunteers. (Cal. Code of Regs., Title 19, §§ 2570.2(d), 2571(a)).

Eligibility for accreditation requires a Disaster Council to provide the Governor's Office of Emergency Services with the following:

A certified copy of an ordinance addressing four items:

- 1. The ordinance must provide for the existence of a Disaster Council.
- 2. A Chairperson or Director of the Disaster Council must be specified.
- 3. The emergency management organization must be recognized.
- 4. Compliance with the Emergency Services Act must be stated.

A model ordinance for both cities and counties is located in Appendix #3 (page 45) of this Guidance. Also included are the Master Mutual Aid Agreement and a Resolution for Registering DSW's. These two documents could also be submitted with the request for accreditation.

If you are unsure of the accreditation status of your jurisdiction, contact your city manager or the Governor's Office of Emergency Services or refer to the Appendix # 2 (page 35) of this Guidance. (Appendix #1: List of California Accredited Disaster Councils)

Questions

Questions regarding the accreditation of your Disaster Council can be directed to the Governor's Office of Emergency Services, Planning and Technological Assistance Branch, at (916) 464 - 3200.

DEFINITIONS

Disaster Service Worker Volunteer

Registered DSWs: A disaster service worker volunteer is "...any person registered with an accredited Disaster Council...for the purpose of engaging in disaster service...without pay or other consideration."²

Registered DSW volunteers are persons who have chosen to volunteer their time to assist a disaster or emergency services agency in carrying out the responsibilities of that agency. The person must:

- be officially registered with the accredited Disaster Council; and,
- not receive any pay, monetary or otherwise, for the service being provided.

Public employees as DSWs

"Disaster service worker" includes public employees performing disaster work that is outside the course and scope of their regular employment without pay...". (Labor Code, §3211.92(b).

Impressed into service

The definition "...also includes any unregistered person impressed into service during a state of war emergency, a state of emergency, or a local emergency by a person having authority to command the aid of the citizens in the execution of his or her duties." ²

Circumstances can occur when an emergency official (a fire fighter, law enforcement officer, or other public official having authority to command the aid of citizens to carry out assigned duties) requires the immediate assistance of another person who may not be a public employee or a registered volunteer. In such a time, that official can order a bystander to assist in that emergency situation. When that is done, the bystander has just been impressed into service, and as such, is covered by worker's compensation and has immunity from liability to the same degree as a registered DSW volunteer. Although rare, certain situations may warrant such action. The emergency official should take note of the impressed person's name, address, and phone number at the scene of the incident. The impressed person is under the supervision of that official until released from that duty.

Disaster Service

"Disaster service means all activities authorized by and carried on pursuant to the California Emergency Services Act, including approved and documented training necessary or proper to engage in such [disaster] activities." (Cal. Code of Regs., Title 19,§2570.2. (3)(b)(1)).

The California Emergency Services Act provides a definition of disaster activities resulting from a "State of war emergency", a "State of emergency", and/or a "Local emergency." This DSWVP Guidance will not address those activities in depth, refer directly to the California Emergency Services Act for additional information. (Govt. Code, §8558 (a)(b)(c)).

The disaster service, as defined for the DSW Volunteer Program, is designed primarily to aid in disaster events. It does not include the day-to-day emergency response activities typically associated with, for example, law enforcement, fire services or emergency medical services.

Convergent Volunteers

Convergent volunteers are not pre-registered volunteers, and have not been impressed into service. They are volunteers who come forward spontaneously during the time of a disaster or emergency event, or post disaster to assist without pay or compensation. Over

the years, California has experienced major disaster events including floods, earthquakes

^{1 &}amp; 2. Cal. Labor Code § 3211.92. "Disaster service worker does not include any member registered as an active fire fighting member of any regularly organized volunteer fire department..., or any paid sheriff's reserve officer".

and fires. During such events, individuals have offered to volunteer their time and skills to assist local government in aiding with the disaster. As many as 10,000 of these individuals (called convergent volunteers) came forward during the Loma Prieta earthquake in 1989.

Augment Existing Organizations

Convergent volunteers are used to augment existing organizations. Pre-disaster registered volunteers are typically used before convergent volunteers. Convergent volunteers serve at the pleasure of the management of the agency they are assisting. The agency may restrict assignments, control their level of participation, or prohibit their use all together. The agency's management assumes the responsibility to ensure that convergent volunteers are physically and mentally capable of performing duties to which they will be assigned, and must provide training appropriate to the assignment. An example of training could be; safety instruction in filling and passing sandbags in a flood situation prior to a volunteer being assigned to that job. Another example of training could be; basic safety instruction in assisting at a shelter and processing incoming evacuees.

Single Event Registration Volunteers who spontaneously come forward to assist can become registered as DSW volunteers for the duration of that single event. (*Refer to Registration and Training*) The local emergency plan should make provisions for organizing and registering convergent volunteers. To be covered for workers' compensation benefits, these volunteers must meet all of the requirements as indicated in the DSW Volunteer Program Regulations. This would include proper registration, appropriate training and working under official supervision. Some Disaster Councils have identified in their emergency plans that certain community-based organizations (CBO's) may facilitate the registration of convergent volunteers. Directing volunteers to a designated location and dispatching them through the CBO may help the accredited Disaster Council manage its resources. The CBO's however, cannot actually register the volunteers. They can assist volunteers filling out the registration form, but the public official having authority to do so must administer the loyalty oath, etc.

Once a convergent volunteer is registered as a Disaster Service Worker volunteer, that person is no longer convergent, but considered a registered DSW volunteer.

Good Samaritan laws

Convergent volunteers not registered as DSW volunteers, have some liability protection for disaster service under Good Samaritan Laws. They are not, however, provided immunities to the extent as registered DSW volunteers and are not covered for workers' compensation insurance through the DSW Volunteer Program. (Govt.Code, §§820, §8657, Public Law 105-19, Volunteer Protection Act of 1997, 42 USCA 14501-14505)

Immunity from Liability

Public Law

The Emergency Services Act (§8657) provides DSW volunteers with limited immunity from liability while providing disaster service as it is defined in §§2570.2 and 2572.2 of the *Disaster Service Worker Volunteer Program Regulation* (Cal. Code of Regs., Title 19). Additionally, U.S. Public Law 105-19, *Volunteer Protection Act of 1997*, provides limited protection. Immunity from liability protects the political subdivision or political entity, and the DSW volunteer in any civil litigation resulting from acts of good faith made by the political subdivision or political entity, or the DSW volunteer, while providing disaster service (e.g., damage or destruction of property; injury or death of an individual). Immunity from liability does not apply in cases of willful intent, unreasonable acts beyond the scope of DSW training,

or if a criminal act is committed.

CLASSIFICATIONS OF DISASTER SERVICE WORKER VOLUNTEERS

Classifications

DSW volunteers are used throughout the state to augment first responder and rescue teams in a state of war, state of emergency, or a local emergency disaster, and to assist in recovery activities following a catastrophic event. The DSW volunteer classifications approved by the California Emergency Council are listed below. If an accredited Disaster Council determines it needs volunteer disaster services not included in one of these classifications, the Council may contact the Governor's Office of Emergency Services, DSWVP Coordinator.

Animal Rescue, Care & Shelter Laborer

Communications Law Enforcement

Community Emergency Response Logistics

Team Member Medical & Environmental Health Finance & Administrative Staff Safety Assessment Inspector

Human Services Search & Rescue

Fire Utilities

Specialties

Classifications may further be defined into specialty areas (e.g.; *Human Services* may include, providers of food, shelter, registration of evacuees, and religious or spiritual needs. *Laborer* may include, a person under the direction and supervision of the responding agency who is doing general labor services and supporting emergency operations. *Medical and Environmental Health* may include, doctors, nurses, radiologists, laboratory technicians, etc.). The DSW volunteer registration form should include a space for the specialty as shown on the sample registration on page 13 of this Guidance. This specialty information will assist the emergency organization in resource planning and management.

REGISTRATION

Purpose of registration

Disaster Service Worker volunteers are registered in order to:

- Assist the emergency organization in advance disaster planning
- Assist in the dispatch and management of resources
- Facilitate administration of the loyalty oath, as required by law
- Protect the interests of volunteers who provide direct services to government agencies and;
- Provide documentation required for workers' compensation coverage under the DSW Program.

Registration

Volunteers, as well as the emergency authority administering the oath, should sign and date the registration form. If under 18 years of age, the signature of a parent or legal guardian is required.

It is illegal to retroactively register a volunteer as a DSW volunteer. For example, if a person has been active with a volunteer organization for some time, but not registered, and is injured, it would be illegal to register them after the injury in hopes the DSW Volunteer Program would cover the injury.

Loyalty Oath

No workers' compensation benefit or reimbursement of expenses incurred may be paid to any DSW volunteer unless the loyalty oath has been taken or subscribed to.

Administration of the Oath

The oath is to be administered only by an officer authorized to administer oaths. At the county and city level, the county or city clerk, at the request of the jurisdiction's OES, may deputize selected staff from the county or city OES as Deputy County/City Clerks for the purposes of administering the loyalty oath to DSW volunteers. The county or city clerk may also designate the county or city OES as the official repository for DSWVP records to make the administration of the Program more practical.

(Refer to Appendices: Govt. Code §3104 and Memo Subject: Administration of Oath)

Registration Expiration

The effective period of a registration may differ according to circumstances.

Single Event Registration A DSW volunteer can be registered for a single event only; such as an exercise, a drill or an actual disaster, even though the person is not a regular active member of an organized response team. At the discretion of the accredited Disaster Council, a single event only registration can be extended to a period of up to one calendar year. (Govt. Code, §3102)

Multi Event Registration For a registered, active DSW volunteer response team member, the registration is effective for the period the person remains a member with that organization. The accredited Disaster Council does have the discretion to establish a more limited oath/registration period such as a certain number of years. Registration renewal times could prompt the DSW volunteer to provide any updates on personal information such as address, telephone

numbers and emergency contact information. The active DSW volunteer does not have to retake or re-subscribe to the loyalty oath with each registration renewal. If, however, the volunteer withdraws from service and later re-registers, the loyalty oath must be readministered. (Govt. Code. 3102.(c)

Background Investigations

There is no statute or regulation requirement for criminal background investigation and health examinations for Disaster Service Worker volunteers. The local accredited Disaster Council may make a determination to review the criminal and health background of potential DSWs. This determination should be made in consultation with local legal counsel. Also, it is prudent to verify professional licenses or certificates, when these documents are pertinent to the duties of the DSW.

Registration Form

An "example" of a completed registration form is located on page 13. A blank registration form is located on page 14. The document style is not required, but is a sample that can be used, or revised, to meet the needs of the jurisdiction, including the use of a jurisdiction's logos. The form may be copied.

(An electronic copy of the registration form can be requested by contacting the Governor's Office of Emergency Services, Regional Staff or the DSW Program Coordinator.)

The person applying to volunteer should fill out the registration form. Information fields required by DSWVP regulations are shaded on the registration form. Additional fields can be filled out with pertinent information that is helpful to the emergency services organization. When signing the registration form, a person having the delegated authority to do so must administer the loyalty oath, and the form signed and dated by that authorized official. (Refer to Appendices: Memo Subject: Administration of Oath and Govt. Code. §3104)

PROGRAM ADMINISTRATION

File Retention and Record Keeping

Documented proof of the oath or affirmation on the registration form of any Disaster Service Worker volunteer is an integral part of an injury claim for workers' compensation. File retention should follow the same rules as other public agency personnel records. The Registration form with oath or affirmation shall be filed within 30 days of the date it was taken or subscribed as follows:

State Agencies

State agencies registering DSW volunteers should file the DSW registration/loyalty oath as prescribed by the State Department of Personnel Administration.

Counties

The registration/oath of any county DSW volunteer shall be filed in the office of the county clerk or in the official department personnel file of the county employee who is designated as a disaster service worker. The oath may be destroyed without duplication five years after the termination of the employee's employment by the county. (Govt. Code, §3105,(b)) (*The term, "employee" is referring to a "volunteer".*)

Cities

File DSW volunteer registration/oaths in the office of the city clerk. At the request of the City OES, the City Clerk may designate a department (e.g., city OES) as the official repository for Disaster Service Worker records in order to make the administration of the program more practical.

Other Agencies or Districts File DSW volunteer registration/oaths with an agency or district designated officer or employee.

Retaining Records

DSWVP original documents are public record and subject to disclosure under the Public Records Act (Govt. Code, §6250, et. seq.). Records should be retained in an official file, available for review by the Governor's Office of Emergency Services or State Compensation Insurance Fund should the need arise. **A copy of the original registration with oath must be submitted with any DSWVP claim**. (Cal. Code of Regs., Title 19, §2573.2 and Govt. Code, §3105)

Training

Since volunteers are important assets in a major response, DSW volunteers should be trained and prepared for disaster service assignments. Registered DSW volunteers are provided workers' compensation insurance coverage while participating in training activities that are pre-approved and documented by the supervising authority. All training should be supervised by the accredited Disaster Council or its' designee. (Cal. Code Regs., §2573.1 (5)(b)(c)(2)(3))

While some classifications require very basic training, others require extensive and specialized training. Some professionals (physicians, nurses, engineers, architects, etc.) may need additional training in how to provide their services under extreme circumstances or hazardous conditions. Regardless of the classification, all DSW volunteers should be given basic safety instruction commensurate with the environment in which they may be providing services.

Documenting Training Each registered DSW volunteer should have training prior to being dispatched to a disaster event. Training can be documented on something as simple as a training sign-in sheet or as elaborate as an individual electronic training record. In the event a DSW volunteer is

injured while attending a training activity, this documentation would help substantiate that the DSW volunteer was, in fact, participating in an official activity. Training schedule documentation should be prepared prior to the event. Should an injury occur during the training, coverage would be appropriately provided.

Exclusions

Registered DSW volunteers will not be provided workers' compensation coverage for participating in parades, public exhibitions, physical fitness training, or other activities not related to disaster service. There are exceptions to this, however, for example, Auxiliary Communications Systems (ACS) may schedule an authorized DSW volunteer training for crowd control communications and will use a public parade event as a tool for that specific type of training. In this example, crowd control communications is not the day-to-day activity of the ACS volunteer and the parade acts as an exercise to develop volunteer skills that can be used in a disaster.

Activation

All registered DSW volunteers should wait for official activation from their supervising authority before carrying out volunteer work. Official activation ensures the DSW volunteer the benefits and protections of the Disaster Service Worker Volunteer Program. Activation of DSW volunteers should be documented by the authorizing agency or organization.

Example -Community Volunteers A major earthquake occurs, severely impacting "City A", and many surrounding cities and counties. The "City A" DSWVP coordinator contacts registered DSW volunteers but can only reach a few volunteers to report to duty at the "City A" Emergency Operations Center. The coordinator has an "Activation Sign-in Sheet" for the volunteers to sign when they report for duty. In nearby "City B" all registered DSW volunteers have been previously trained, that in time of a major disaster they are to report immediately to their neighborhood Community Emergency Response Team (CERT) coordinator for signing-in and further instruction.

Official activation took place in both "City A" and "City B" however, using different methods. "City A" activated via a phone or auxiliary communication to the registered volunteer, and "City B" volunteer activated immediately according to training procedures. Both had official activation sign-in rosters that can substantiate activated volunteers.

Example -Auxiliary Communications

Same scenario as previous example. As soon as "City A" is activated, the ACS Coordinator is alerted and ACS activated. "Radio Amateur Civil Emergency System (RACES) can be activated at any time of perceived or actual need by the sponsoring local or state government pursuant to a request of the authorized official of that government." (The ARRL Operating Manual, 3rd edition, page 14-17). Licensed auxiliary communication systems operators should know and follow the chain of authority in the written local government Emergency Communications (ECOMM) Unit Plan. The ECOMM bulletins are also available on the internet. (Refer to Appendix # 9 for acronyms and web sites)

Reimbursement of Expenses

Although DSWs volunteer their time without pay or other consideration, personal expenses incurred while performing disaster service may be reimbursed. Expenses may include per diem costs (meals, lodging, etc.) while providing disaster service out of the home area or

for extended work shifts. Policy with regard to reimbursement of expenses is to be determined by the accredited Disaster Council or designated authority. The DSW volunteer should be informed of this policy prior to incurring such expenses.

Note

The DSW Volunteer Program fund budgeted annually by the California Legislature does not provide funds for reimbursement of personal expenses incurred while performing disaster service. This fund allocation is only for workers' compensation insurance coverage. Funding for reimbursement of personal expenses incurred during disaster service is the responsibility of the accredited Disaster Council or designated authority, and may or may not be reimbursed to that entity by the state or by the federal government. Please check with your finance staff for specific information regarding reimbursement of disaster expenses.

WORKERS' COMPENSATION CLAIM PROCEDURES

Covered Activities

Registered DSW volunteers may file a claim for injuries sustained while engaged in the following activities:

- Performing disaster service, including travel to and from the incident site, when called to duty during an emergency or disaster, or while participating in a search and rescue operation.
- Participating in an authorized and documented, planned disaster training activity or disaster exercise. Coverage for these activities does not include travel to and from the training site.

Unregistered volunteers impressed into disaster service by a public official having the authority to do so, may file a claim for injuries sustained while performing that service. Unregistered volunteer workers not impressed into service may not file a claim if injured during a training activity or disaster exercise.

Supervising Agency Responsibilities

The supervising agency is responsible for briefing registered DSW volunteers on injury reporting procedures. This should be done as part of the initial safety training.

Two State Compensation Insurance Fund (SCIF) forms, a written narrative of the incident, and a copy of the DSWV Registration form including the loyalty oath must be submitted to properly initiate a claim:

- 1. SCIF Form 3301, *Employee's Claim for Workers' Compensation Benefits (revised with new header address, June 2000)*. This form must be provided to the DSW volunteer *within 24 hours*³ of the supervising agency receiving knowledge that an injury occurred or is alleged. The injured DSW volunteer should fill out and sign the form, returning it to the supervisor within 3 days (72 hours) of requesting the form.
- 2. SCIF Form 3267, *Employer's Report of Occupational Injury*. This form must be sent to SCIF *within 5 days*⁴ of the supervising agency receiving knowledge that an injury occurred or is alleged.
- 3. A brief and clear, written narrative of the incident leading to the injury.
- 4. A copy of the original DSW volunteer registration form including the signed loyalty oath.

Copies of these forms should be submitted to both SCIF and the Governor's Office of Emergency Services (State OES).

³ SCIF Brochure #13760, *Information for the Disaster Service Worker About Workers' Compensation Benefits*, may be given to an injured DSW volunteer at the same time. Brochures may be obtained from your local SCIF office or from the Governor's Office of Emergency Services.

⁴ Late reporting may result in penalties being paid from the DSWVP workers' compensation insurance, disaster relief fund.

7	Enter the DSW volunteer's social security number.	
8	It is important that the DSW volunteer (or their representative) sign the claim form. In doing so, the DSW volunteer:

WORKERS' COMPENSATION COVERAGE INFORMATION

Medical Treatment

When an injury occurs, the DSW volunteer must be referred to a medical provider for evaluation and treatment. If the injury requires emergency care, the supervising agency can select the most appropriate medical provider. If a non-emergency injury occurs, the DSW volunteer can be referred to his or her personal medical provider.

If the DSW volunteer has designated a medical provider or facility prior to the injury, treatment with that provider must be allowed. If no designation was made, the supervising agency has the authority to select a medical provider or facility.

The supervising agency *may* exercise control over medical treatment on a SCIF accepted injury for the first 30 days. If treatment goes beyond 30 days, the DSW volunteer has the right to select his or her own doctor.

Pre-existing medical condition

Insurance coverage for the DSWVP is "No Fault" coverage. The existence of, and the percentage of disability from any pre-existing condition is factored into the percentage of compensation coverage under the DSWVP.

Liability Determination

SCIF has the obligation to make a final decision to accept or deny the claim within 90 days of the supervising agency's knowledge of an alleged claim. The claimant and supervising agency would be notified upon determination. This process of determination may involve arranging for medical evaluations and conducting investigative interviews to properly assess the claim.

Acceptance: If within 90 days, SCIF determines that the claim has merit, the Governor's

Office of Emergency Services (OES) will be notified of the decision. All retroactive benefits will be paid to the claimant.

retroactive benefits will be paid to the cialinant.

SCIF will monitor all medical treatment resulting from the injury and report the

status to OES.

Denial: If the claim is denied, SCIF will need to rely on the information provided by

OES and the supervising agency, in addition to their own examinations and questions. It is necessary that all information on the claim forms is accurate.

Disputes and Delays

If the supervising agency has cause to dispute a claim:

- Immediately notify the SCIF Sacramento Office by phone or FAX. (Page 19)
- Clearly address the issues on the SCIF Form 3267 Employer's Report of Injury, line 42 (back side of form). Indicate specific reasons why the claim should be disputed. If this form has already been submitted, report the dispute in writing.
- Provide SCIF with names of supervisors, witnesses and any other relevant information.
- This does *not* remove the supervising agency's obligation to serve the injured DSW volunteer with the SCIF Form 3301 Employee's Claim for Workers' Compensation Benefits.
- If a supervising agency fails to properly respond to a claim after notification of an injury (even a claim the supervising agency may want to dispute), the claim will be deemed accepted after 90 days from the date of knowledge of injury.

TITLE 19. PUBLIC SAFETY DIVISION 2. OFFICE OF EMERGENCY SERVICES CHAPTER 2. EMERGENCIES AND MAJOR DISASTERS SUBCHAPTER 3. DISASTER SERVICE WORKER VOLUNTEER PROGRAM

§ 2570. Short Title.

This subchapter shall be known and may be cited as the Disaster Service Worker Volunteer Program (DSWVP) Regulations.

§ 2570.1. Purpose.

The Legislature has long provided a state-funded program of workers' compensation benefits for disaster service worker volunteers who contribute their services to protect the health and safety and preserve the lives and property of the people of the state. This program was established to protect such volunteers from financial loss as a result of injuries sustained while engaged in disaster service activities and to provide immunity from liability for such disaster service worker volunteers while providing disaster service.

§ 2570.2. Definitions.

- (a) Disaster Service Worker.
- (1) A disaster service worker is any person registered with a disaster council or the Governor's Office of Emergency Services, or a state agency granted authority to register disaster service workers, for the purpose of engaging in disaster service pursuant to the California Emergency Services Act without pay or other consideration.
- (2) Disaster service worker includes public employees, and also includes any unregistered person impressed into service during a state of war emergency, a state of emergency, or a local emergency by a person having authority to command the aid of citizens in the execution of his or her duties.
- (3) Exclusion: Disaster service worker does not include any member registered as an active fire fighting member of any regularly organized volunteer fire department, having official recognition, and full or partial support of the county, city, town or district in which such fire department is located.

- (b) Disaster Service.
- (1) Disaster service means all activities authorized by and carried on pursuant to the California Emergency Services Act, including approved and documented training necessary or proper to engage in such activities.
- (2) Exclusion. Disaster service does not include any activities or functions performed by a person if the disaster council with which the person is registered receives a fee or other compensation for the performance of that person's activities or functions.
- (c) Training. For purposes of these regulations, training is a planned activity sponsored by a disaster council (or designated agency or authority) and may include classroom instruction, disaster drills or exercises, or related activities that are designed to enhance the disaster response skills (including safety) of the disaster service worker.
- (d) Disaster Council. A disaster council is a public agency established by ordinance which is empowered to register and direct the activities of disaster service workers within the area of the county, city, city and county, or any part thereof. In this respect, the disaster council is acting as an instrument of the state in aid of carrying out general state government functions and policy with regard to disaster services.
- (e) Accredited Disaster Council. A disaster council may become accredited through certification by the California Emergency Council, or the Governor when the Emergency Council is not meeting, when the disaster council agrees to follow and comply with the rules and regulations established by the Emergency Council pursuant to the provisions of the Emergency Services Act. Upon certification, and not before, the disaster council becomes an accredited disaster council. A disaster council remains accredited only while the certification of the California Emergency Council is in effect and is not revoked.
- (f) Auxiliary Fire Fighter. An auxiliary fire fighter is a person recruited, registered and trained as a supplement or reserve for unusual fire emergencies or disaster

situations. Workers' compensation benefits for auxiliary fire fighters may be provided by the state. An auxiliary fire fighter is not a "volunteer fire fighter," who is a person recruited and trained to meet the day-to-day operational requirements of a fire department. Workers' compensation insurance premiums for the volunteer fire fighter are the responsibility of the local government or fire entity.

- (g) Public Employee. All persons employed by the state or any county, city, city and county, state agency or public district, excluding aliens legally employed, are considered to be public employees.
- (h) Convergent Volunteers. Convergent volunteers are individuals that come forward to offer disaster response and recovery volunteer services, during a disaster event. Convergent volunteers are not persons impressed into service at the scene of an incident.

§ 2571. Accredited Disaster Council.

- (a) Disaster councils shall be accredited in accordance with Sections 8581 (b) or 8612, Government Code.
- (b) When applying for accreditation, disaster councils shall furnish the Governor's Office of Emergency Services with a certified copy of the ordinance which has provided for the following:
- (1) a disaster council;
- (2) a Chairperson or director of the disaster council;
- (3) an Emergency organization; and,

§ 2572.1. Classifications and General Duties.

The various classifications of disaster service workers and the general duties of the members of each classification shall be limited to those described below.

(a) Animal Rescue, Care and Shelter. Veterinarians, veterinary support staff and animal handlers providing skills in the rescue, clinical treatment, and transportation of all animals, including but not limited to companion animals, livestock, poultry, fish, exhibition animals, zoo animals, laboratory and

- research animals, and wildlife; assisting in the procurement of shelters, equipment, and supplies; documenting arrival, sheltering, treatment, and discharge or placement of animals.
- (b) Communications. Install, operate and maintain various communications systems and perform related service, to assist officials and individuals in the protection of life and property.
- (c) Community Emergency Response Team Member. - (f) Fire. As auxiliary fire fighters or auxiliary wildland fire fighters, assist regular fire fighting forces or fire protection agencies to fight fire, rescue persons, and save property; control forest or wildland fires or fire hazards; instruct residents in fire prevention and property defense methods, methods of detecting fire, and precautions to be observed in reducing fire hazards.
- (1) For purposes of these regulations only, the ratios between auxiliary fire fighters, volunteer fire fighters, and paid fire fighters shall be one auxiliary for one volunteer and three volunteers for one paid fire fighter. The basis for applying these ratios is that the staffing of an engine company, truck company, or a squad shall not exceed six paid fire fighters, and a salvage and rescue company shall not exceed two paid fire fighters. A fire department that has no volunteer fire fighters is limited to three auxiliary fire fighters for each paid fire fighter in the companies and squads, staffed as above. These staffing standards are based on the number of first line (not reserve) apparatus operated by the fire department.

- (2) When auxiliary fire fighters are registered with other than an established fire service organization; for example, auxiliary fire fighters in a county or city emergency management services organization, a total number of eligible auxiliary fire fighters shall be computed for that city or unincorporated area. The emergency management services organization is entitled to register auxiliary fire fighters not otherwise registered with other established fire service organizations, and to a number not to exceed the allowable total as indicated in Section 2572.1 (f) (1), above

- (k) Safety Assessment Inspector. Survey, evaluate and assess damaged facilities for continued occupancy or use; assist in emergency restoration of facilities for utilities, transportation, and other vital community services; and provide recommendations regarding shoring or stabilization of damaged or unsafe buildings or structures.
- (1) Search and Rescue. Under the direction of the appropriate authority, perform search and rescue operations in one or more of several areas including: search and rescue; urban search and rescue; or mine and confined space rescue.
- (m) Utilities. Assist utility personnel in the repair and restoration of public utilities damaged by disaster.

- (2) The disaster council (or designated agency or authority) shall ensure disaster training is approved, documented and supervised, and shall ensure disaster training is commensurate with the duties of the disaster service worker.

SAMPLE LETTER SENT BY STATE OES TO A NEWLY INCORPORATED CITY

Governor's Office of Emergency Services Address

Date
Name, Title Address
Dear,
The Governor's Office of Emergency Services (OES) has been notified that (city) has recently become an established city in county. The Emergency Services Act requires cities to prepare an Emergency Ordinance and a Disaster Worker Resolution to become an accredited Local Disaster Council. It also states that cities must provide the OES with certified copies of the above ordinances which address the following four items:

- 1. The ordinance must provide for the existence of a Disaster Council
- 2. A chairperson or director of the Disaster Council must be specified.
- 3. The emergency management organization must be recognized.
- 4. Compliance with the Emergency Services Act must be stated.

Enclosed are suitable model ordinances for both cities and counties. These documents are essential to providing your city emergency powers, resources, and protection during times of disaster.

The Emergency Ordinance provides the legal basis for your city's emergency organization. It designates and describes powers of the Director of the Emergency Services as well as the powers and composition of the Local Emergency Council.

The Workers' Compensation resolution allows the city to participate in the State Workers' Compensation Program to protect duly registered Disaster Service Workers. Without participation in this critical aspect, the use of volunteers during an emergency could be exposing your city to increased liability.

Both the ordinance and resolutions must be submitted to the Governor or the State Emergency Council in order for your Local Emergency Council to be accredited. Accreditation permits your city to duly register Disaster Service Workers as defined by law.

Signing the Master Mutual Aid agreement enables your city to participate in the statewide Mutual Aid system. This reciprocal agreement permits your city to receive and send emergency personnel, equipment, and facilities needed during times of disaster without the expectation of reimbursement.

In view of the important nature of these documents, we wish to assist you in gaining accreditation for your local emergency council and recording your participation in the statewide Master Mutual Aid system.

Please submit the documents to your regional Office of Emergency Services office so that we can forward them to the Governor for approval.

ENDNOTES

- ¹ In city manager or chief administrative officer cities, that officer should be named director of emergency services; where there is no city manager or chief administrative officer, or in strong mayor cities, the major should be named director.
 - In the latter case, subsection B of this section should be deleted and the following subsections should be relettered since, under SEC. 5.A. supra, the mayor would be appointed director of emergency services.
- ² In cities where the mayor is the director of emergency services (see footnote 1) this subsection would read as follows: "The assistant director of emergency services, who shall be vice chairman."
- ³ See SEC. 8, providing for the structure, duties, and functions of the emergency organization.
- ⁴ See suggested local proclamations -- Part Three, State Emergency Plan.
- ⁵ Note the provisions of Sec. 8630 of the California Emergency Services Act which require that the city council review, at least every fourteen days until a local emergency is terminated, the need for continuing the local emergency, and further require that the city council terminate the local emergency at the earliest possible date the conditions warrant.

- ⁷ General law cities, see Sec. 38791 of the Government Code, regarding authority to provide for a chief executive with special powers during emergencies.
- ⁸ The State of California has provided workers' compensation benefits for all registered volunteers of an accredited disaster council organization. See Part Three, State Emergency Plan
- ⁹ See Sec. 53021 of the Government Code.

¹⁰ Under the provisions of Sec. 8668 (a) of the California Emergency Services Act, existing civil defense and disaster ordinances will remain in full force and effect until revised, amended, or revoked; therefore the existing ordinances should be expressly repealed by number. In subsequent revisions of a city emergency services ordinance, the following proviso should be included in the repealing section in order to preserve existing rights and privileges:

[&]quot;Provided, that it is the intent of the city council in enacting this ordinance that it shall be considered a revision and continuation of the ordinance repealed by this ordinance, and the status of volunteers shall not be affected by such repeal; nor shall plans and agreements, rules and regulations, or resolutions adopted pursuant to such repealed ordinance be affected by such repeal until amended, modified, or superseded as provided in this ordinance."

State of California

Governor's Office of Emergency Services

MEMO

DATE: June 22, 2000

SUBJECT: Administration of Oath: Disaster Service Worker Volunteers

Administering the oath required of disaster service workers by Government Code § 3102:

Statutory Requirements

Disaster service workers must take and subscribe to an oath before entering upon their duties (§ 3102). The oath is that contained within the California Constitution in Article 20, § 3. Section 3104 provides that the oath "may be taken before any officer authorized to administer oaths," or by the person's appointing power or "any person authorized in writing by the appointing power."

An officer authorized to administer oaths includes "[E]very executive and judicial officer and every Member of the Legislature," as well as retired judges who have received a certification from the Commission on Judicial Performance (§ 1225); every clerk of any court, every justice, and every officer authorized to take testimony in any action or proceeding, or to decide upon evidence (Code of Civil Procedure § 2093). Additionally, a notary public is considered an officer of the state who is authorized to administer oaths (§ 8205). In regard to the administration of the oath and in particular with respect to notaries public, it is noted that § 3102 expressly prohibits the charging of a fee for administering the oath.

The foregoing would include department heads of state agencies (§ 11181), including the Director of OES pursuant to § 8585 of the Emergency Services Act, and to any officer of OES to whom the Director delegates the power.

Also authorized to administer the oath is any person authorized in writing by the Director, as the appointing power, in those cases where OES directly registers the disaster service worker (§ 3104).

Options at local jurisdictional OES

- 1. Provide potential candidates for registration as disaster service workers with forms containing the required oath; they would be directed to subscribe to the oath before an officer empowered to administer oaths and bring the form to the event or activity in which they wish to participate. The forms would there be collected and forwarded to local OES along with other required registration information. A generic list of officers who can administer oaths (as described above) may be provided along with the blank form.
- 2. Arrange for an officer authorized to administer oaths (as described above) to be present at the activity or event for the purpose of taking the oath. The forms would be collected and forwarded to OES as in 1., above.
- 3. By written instrument, have the clerk of the county or city, delegate the authority to administer the oath to a responsible person who is known to be participating in the event or activity. Again, the form would be collected and delivered to OES by that person, and filed according to regulations.

Each of these methods is equally lawful; it is not necessary to employ but one if having the range of alternatives available is beneficial.

It is hereby declared that the protection of the health and safety and preservation of the lives and property of the people of the state from the effects of natural, manmade, or war-caused emergencies which result in conditions of disaster or in extreme peril to life, property, and resources is of paramount state importance requiring the responsible efforts of public and private agencies and individual citizens. In furtherance of the exercise of

the police power of the state in protection of its citizens and resources, all public employees are hereby declared to be disaster service workers subject to such disaster service activities as may be assigned to them by their superiors or by law.

Legislature," as well as retired judges who have received a certification from the Commission on Judicial Performance; every clerk of any court, every justice, and every officer authorized to take testimony in any action or proceeding, or to decide upon evidence (Code of Civil Procedure § 2093), may administer and certify oaths. Additionally, a notary public is considered an officer of the state who is authorized to administer oaths (§ 8205). In regard to the administration of the oath and in particular with respect to notaries public, it is noted that § 3104 expressly prohibits the charging of a fee for administering the oath. Added to this list (perhaps somewhat redundantly) must be department heads (§ 1118), which would include the Director of OES pursuant to § 8585 of the Emergency Services Act, and to any officer of OES to whom the Director delegates the power. Also authorized to administer the oath is any person authorized in writing by the Director, as the appointing power, in those cases where OES directly registers the disaster service worker (§ 3104).

Govt. Code. 3104. The oath or affirmation may be taken before any officer authorized to administer oaths. The oath or affirmation of any disaster service worker may be taken before his appointing power or before any person authorized in writing by his appointing power.

Whenever there is more than one officer certifying to public payrolls the governing body of a city or county or school district may designate and make it the duty of a certain officer or officers to ascertain and certify that such disaster service worker has taken such oath or affirmation. The governing body of a city or county or school district may designate and make it the duty of a local disaster service officer to ascertain and certify that each volunteer disaster service worker has taken such oath or affirmation. Nothing in this chapter, however, shall prevent the correction of any technical error or deficiency in an oath taken pursuant to this chapter; provided, such correction is made before the disaster service worker is actually paid or reimbursed. Police Functions:

Labor Code. 3362.5. Whenever any qualified person is deputized or appointed by the proper authority as a reserve or auxiliary sheriff or city police officer, a deputy sheriff, or a reserve police officer of a regional park district or a transit district, and is assigned specific police functions by that authority, the person is an employee of the county, city, city and county, town, or district for the purposes of this division while performing duties as a peace officer if the person is not performing services as a disaster service worker for purposes of Chapter 10 (commencing with Section 4351).

See Labor Code 4351.

Employee Exclusion:

Labor Code. 3352.94. "Employee" excludes a disaster service worker while performing services as a disaster service worker except as provided in Chapter 10 of this part. "Employee" excludes any unregistered person performing like services as a disaster service worker without pay or other consideration, except as provided by Section 3211.92 of this code.

Entitlement:

Labor Code. 3600.6. Disaster service workers registered by a disaster council while performing services under the general direction of the disaster council shall be entitled to all of the same benefits of this division as any other injured employee, except as provided by Chapter 10 (commencing with Section 4351) of Part 1. For purposes of this section, an unregistered person impressed into performing service as a disaster service worker during a state of war emergency, a state of emergency, or a local emergency by a person having authority to command the aid of citizens in the execution of his or her duties shall also be deemed a disaster service worker and shall be entitled to the same benefits of this division as any other disaster service worker.

See labor Code 4351.

"COMPENSATION"

Labor Code. 4351. Compensation provided by this division is the exclusive remedy of a disaster service worker, or his or her dependents, for injury or death arising out of, and in the course of, his or her activities as a disaster service worker as against the state, the disaster council with which he or she is registered, and the county or city which has empowered the disaster council to register and direct his or her activities. Liability for compensation provided by this division is in lieu of any other liability whatsoever to a disaster service worker or his or her dependents or any other person on his or her behalf against the state, the disaster council with which the disaster service worker is registered, and the county or city which has empowered the disaster council to register and direct his or her activities, for any injury or death arising out of, and in the course of, his or her activities as a disaster service worker.

Labor Code. 4352. No compensation shall be paid or furnished to disaster service workers or their dependents pursuant to this division except from money appropriated for the purpose of furnishing compensation to disaster service workers and their dependents. Liability for the payment or furnishing of compensation is dependent upon and limited to the availability of money so appropriated.

After all money so appropriated is expended or set aside in bookkeeping reserves for the payment or furnishing of compensation and reimbursing the State Compensation Insurance Fund for its services, the payment or furnishing of compensation for an injury to a disaster service worker or his or her dependents is dependent upon there having been a reserve set up for the payment or furnishing of compensation to that disaster service worker or his or her dependents and for that injury, and liability is limited to the amount of the reserve. The excess in a reserve for the payment or furnishing of compensation or for reimbursing the State Compensation Insurance Fund for its services may be transferred to reserves of other disaster service workers for the payment or furnishing of compensation and reimbursing the State Compensation Insurance Fund, or may be used to set up reserves for other disaster service workers.

Labor Code. 4353. If a disaster service worker suffers injury or death while in the performance of duties as a disaster service worker, then, irrespective of his or her remuneration from this or other employment or from both, the average weekly earnings for the purposes of determining temporary and permanent disability indemnity shall be taken at the maximum fixed for each, respectively, in Section 4453.

Labor Code. 4354. If the injury sustained by a disaster service worker causes permanent disability, the percentage of disability to total disability shall be determined as for the occupation of a laborer of like age by

applying the schedule for the determination of the percentages of permanent disabilities prepared and adopted by the administrative director. The amount of the weekly payment for permanent disability shall be the same as the weekly benefit which would be paid for temporary total disability pursuant to Section 4353.

"LIABILITY"

Civil Code. 1714.5. There shall be no liability on the part of one, including the State of California, county, city and county, city or any other political subdivision of the State of California, who owns or maintains any building or premises which have been designated as a shelter from destructive operations or attacks by enemies of the United States by any disaster council or any public office, body, or officer of this state or of the United States, or which have been designated or are used as mass care centers, first aid stations, temporary hospital annexes, or as other necessary facilities for mitigating the effects of a natural, manmade, or war-caused emergency, for any injuries arising out of the use thereof for such purposes sustained by any person while in or upon said building or premises as a result of the condition of said building or premises or as a result of any act or omission, or in any way arising from the designation of such premises as a shelter, or the designation or use thereof as a mass care center, first aid station, temporary hospital annex, or other necessary facility for emergency purposes, except a willful act, of such owner or occupant or his servants, agents or employees when such person has entered or gone upon or into said building or premises for the purpose of seeking refuge, treatment, care, or assistance therein during destructive operations or attacks by enemies of the United States or during tests ordered by lawful authority or during a natural or manmade emergency.

No disaster service worker who is performing disaster services ordered by lawful authority during a state of war emergency, a state of emergency, or a local emergency, as such emergencies are defined in Section 8558 of the Government Code, shall be liable for civil damages on account of personal injury to or death of any person or damage to property resulting from any act or omission in the line of duty, except one that is willful.

See Govt. Code 8558.

QUESTIONS AND ANSWERS

1. Do public employees need to be registered as Disaster Service Workers?

No. A public employee, by the fact of being a paid public employee, is a disaster service worker during a disaster, state of emergency, state of war emergency or a local emergency. They may be instructed by their employer to carry out disaster related activities within the course and scope of their employment and, if injured during the course of those activities, would be covered under their employer's worker's compensation.

2. During a disaster, if a public employee is doing volunteer disaster service on their own time, outside the course and scope of their normal employment job duties, without pay or compensation, and is injured - - is the injured covered by the Disaster Service Worker Program or their public employer's workers' compensation insurance? In cases where they are directed to perform some work without pay which they are not employed to perform, they would be covered under the DSW workers' compensation program.

3. Can elected officials administer the loyalty oath?

Yes. Also refer to Appendix #4 (page 55) of this Guidance for information on the authority to administer the Loyalty Oath.

4. Can the authority to administer the Loyalty Oath be sub-delegated?

Yes, by those having authority to administer the Oath. If subdelegated authority is granted, a signed document listing those persons being given that authority should be maintained by that authority, and a copy of same sent to the DSWVP Coordinator.

5. When and how can a convergent volunteer be given minimal training at the time of a disaster event?

The jurisdictions' emergency plan should address the issue of how minimum training will be given to convergents at a time of disaster. Refer to page 8 of this Guidance: "Augmenting existing organization" for example situations.

6. Is an ID card issued when a person registers as a DSW volunteer?

Some jurisdictions issue a DSW identification card and some do not. When an ID card is issued, it should have an identification number and the verbiage, "Not for general identification purposes". The DSWVP regulations do not require that an ID card be issued.

7. Will an official DSW ID card automatically allow me to go on scene at the time of a disaster?

No. The DSW ID card identifies that you are officially registered as a DSW volunteer and have been trained for disaster service. To get "on scene", you would need an official activation document on your person given you by your supervising authority and other appropriate identifications.

8. Can a registered DSW volunteer be covered for an injury from disaster service work even if that DSW has a pre-existing medical condition?

Yes. Workers compensation for the DSWVP is a "No Fault" insurance. Any legitimate DSW claim is covered. SCIF determines the claimant's disability based on standard schedules, and factors in the percentage of disability from any pre-existing condition based on medical reports from your doctor.

10. Who activates the Disaster Medical Assistance Teams (DMAT)?

Generally, the federal government. In California, the Standardized Emergency Management System (SEMS) is followed during any emergency response. When a DMAT is needed, the request would go from the incident or field level to the Local area, then to the Operational area (OA), then to the Regional level (REOC) of the state. The state REOC [specifically, the Emergency Medical Services Authority (EMSA) or the medical/health branch] would request the federal authorities to activate and deploy a DMAT to meet the request.

11. Why can an Auxiliary Fire Fighter be a registered DSW volunteer, and a regular volunteer Fire Fighter cannot be a registered DSW?

Auxiliary fire fighters are only called upon to supplement the jurisdiction's regular fire fighters when there is an extraordinary need. They are not covered by the jurisdiction's workers' compensation program, and are eligible for the DSWVP. Volunteer fire fighters regularly respond to fire calls. They are required to be covered by the jurisdiction's workers compensation insurance.

12. Can a DSW be registered with more than one Classification?

If more than one classification could be assigned, PICK ONE as the primary Classification, including a specialty area for that Classification. List any secondary classifications in the comment section of the DSW Registration.

13. Can a single registration form be used for registering a group of people, for example, a one-day training requiring the use of multiple volunteers for that one-day only?

Yes. A group registration form could be developed, ensuring the information fields required by regulation are included, and the Loyalty Oath incorporated on the form. The form would require an original signature from each person registering, and the loyalty oath administered by an official having authority to do so. The administering authority should also sign the document.

14. How does the State of California know if the official that signed a DSW registration submitted with a claim does, in fact, have the authority to do so?

If the claim were to be questioned, documented proof of delegated authority to administer the oath in that jurisdiction could be required. If a person is unsure, they should not sign as the administering authority. Agency/jurisdiction policies and procedures document should be kept on file identifying those positions or individuals with delegated authority to administer the oath. See Appendix #4 (page 55): Administration of the Loyalty Oath.

15. Why do conscientious objectors have to take the loyalty oath?

It is required in Government Code §3102, §3103 and DSWVP Regulations that to be a registered DSW volunteer in the California DSWVP, the loyalty oath must be signed.

16. Is a person impressed into disaster service covered by the DSWVP?

Yes. An impressed person has the same workers' compensation coverage and immunity afforded a registered DSW volunteer.

17. Who other than peace officers and fire fighters has the authority to command the aid of citizens in the execution of his or her duties (impress a person into disaster service activities)?

Relating to the DSW volunteer program, should occasion require, peace officers and fire fighters would be the officials to "impress".

18. Can a special district be an accredited disaster council?

No. It can, however, have a joint powers agreement with a city or county that is an accredited disaster council for the purpose of registering volunteers in the DSWVP.

19. Can a volunteer be registered as a DSW for just one day, for one event?

Yes. Jurisdictions sometimes hold one-day training exercises for such areas as medical response or search and rescue work that require volunteers serving in the roles of the injured.

20. Are the DSWVP classifications limited to certain specialties?

No. The "Specialty" field on the DSW registration is to more clearly identify the area of skill(s) of the volunteer. Community Emergency Response Team (CERT) classifications might include Specialty areas such as "computer", "phones", "shelter registration", "first-aid", "cooking", "child care", etc. Specialty terms may be determined by the registering jurisdiction.

21. What constitutes appropriate training for neighborhood emergency teams?

Basic Safety Training should be required for all volunteers. Work in cooperation with your local OES to include your volunteers in training the jurisdiction might be scheduling. Have volunteers take the training that best fits the area of disaster service in which they will be working. The organization or association officers according to procedures the group has established could train volunteers who will be assisting with administrative activities and registrations.

22. How should neighborhood emergency teams be dispatched?

Work in cooperation with your local OES to develop a disaster response plan. Address the issue of dispatch or activation in that plan, making sure it is in harmony with your local OES emergency response plan. See Guidance page 16: Activation.

23. How should neighborhood emergency teams be supervised?

Work in cooperation with your local OES to develop a disaster response plan and address the issue of supervision in that plan, making sure it is in harmony with your local OES emergency response plan. Supervision could include,

- Directing activities through verbal commands or written instruction
- Commensurate with level of responsibility and training given the DSW.
- 24. Should the neighborhood emergency teams report to the local OES during emergency response?

Communication and resource requesting should flow according to California's Standardized Emergency Management System (SEMS). Reporting to teams and all volunteers should be consistent with the local disaster plan and related procedures.
