DEFENSE COURIER SERVICE REGULATION

ADMINISTRATIVE REISSUANCE INCORPORATING CHANGE 1, AUGUST 25, 1998

ASSISTANT SECRETARY OF DEFENSE FOR COMMAND, CONTROL, COMMUNICATIONS, AND INTELLIGENCE
FOREWORD

This Regulation is reissued under the authority of DoD Directive 5200.33, "Defense Courier Service (DCS)," December 7, 1994. It prescribes procedures for DCS administration and operations.

This Regulation applies to the Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Inspector General of the Department of Defense, the Uniformed Services University of the Health Sciences, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as "the DoD Components").

It also applies to other activities of the U.S. Government, U.S. Government contractors, foreign governments, and the North Atlantic Treaty Organization seeking to use the DCS.

This Regulation is effective immediately and is mandatory for use by all the DoD Components. The Heads of DoD Components should not issue formal supplemental regulations.

Send recommended changes to the Regulation to:

Director, Security Programs
Office of the Deputy Assistant Secretary of Defense (Security & Information Operations)
Office of the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence
6000 Defense, Pentagon
Washington, D.C. 20301-6000
The DoD Components may obtain copies of this Regulation through their own publication channels, approved for public release; distribution unlimited. Authorized registered users may obtain copies of this publication from the Defense Technical Information Center, Cameron Station, Alexandria, VA 22304-6145. Other Federal Agencies and the public may obtain copies from the U.S. Department of Commerce, National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

DL1. DEFINITIONS

DL1.1.1. Armed Escort. An armed individual accompanying a DCS courier and charged with the protection of the material in the control of the courier.

DL1.1.2. Authorized User. Any U.S. Government activity or contractor authorized to send and receive qualified material, as described in DoD Directive 5200.33 (reference (a)).

DL1.1.3. Command Messenger. An individual designated, in writing, by an authorized customer to accept and deliver material on its behalf. A command messenger may represent several users simultaneously.

DL1.1.4. Consolidated Control Point (CCP). A DCS account designated by one or more accounts to act as its agent for receiving and entering DCS material.

DL1.1.5. Contracting Officer's Authorized Representative (COAR). The Government official responsible to provide technical coordination and information on a contract (and contractor) with his and/or her Agency.

DL1.1.6. Customer Name. The customer's name represented in 30 characters, or less (including spaces).

DL1.1.7. DCS Account Number. The unique identifier assigned to a DCS customer, consisting of a 6-character alphanumeric base number and a 4-character delivery reference code separated from the base number by a dash (e.g., 999999-XX99).

DL1.1.8. DCS Article Number. The control number used to identify DCS material. It consists of the two-letter digraph of the originating DCS station, followed by up to six digits. It should be placed in the lower-right quadrant of the address side of the article.

DL1.1.9. DCS Customer. An authorized DCS user with a current, authenticated, and validated DCS Form 10, "Defense Courier Service Authorization Record," or other written authorization.

DL1.1.10. DCS Route. An approved regularly scheduled itinerary for the transportation of material between two DCS stations or a DCS station and its customers. Routing information is available from the servicing DCS station.
DL1.1.11. **Dedicated Courier.** Members of the U.S. Armed Forces or civilian employees assigned to the DCS, possessing the proper security clearance, who have completed the DCS school and are qualified as couriers by the Commander, DCS. Dedicated couriers are identified by credentials issued by the DCS.

DL1.1.12. **Defense Courier Automated Management System (DCAMS).** The DCS computer system supporting administrative and operational functions of the worldwide DCS system.

DL1.1.13. **Defense Courier Service (DCS).** A joint command and direct reporting unit (DRU) under the Commander in Chief United States Transportation Command (CINCTRANS). The DCS establishes, staffs, operates, and maintains an international network of couriers and courier stations for the expeditious, cost effective, and secure transmission of qualified classified documents and material.

DL1.1.14. **Defense Courier Service Station (DCS Station).** A joint-service activity of the DCS for the acceptance, processing, dispatch, and delivery of qualified courier material.

DL1.1.15. **Designated Courier.** An appropriately cleared active duty member of the U.S. Armed Forces, or, when authorized by the Commander, DCS, a U.S. Government civilian employee (in grade GS-5, or above), who is selected to take custody of, safeguard, and escort a particular DCS shipment.

DL1.1.16. **Diplomatic Courier.** A person appointed and assigned by the U.S. Department of State (DoS), who holds a diplomatic passport and a courier letter signed by the Secretary or the Under Secretary of State.

DL1.1.17. **Provisional Courier.** A person assigned outside the DCS, nominated by the individual's parent command, and trained by the DCS to act as the DCS representative in a given area.

DL1.1.18. **Qualified Material.** Material listed in enclosure E2. of DoD Directive 5200.33 (reference (a)) that may be transmitted by the DCS.

DL1.1.19. **Regular Movement.** A precedence designator applied to the movement of material qualified for entry into the DCS. Regular movement material moves on normally scheduled transportation, consistent with available space, and usually is not commingled with special movement material.
DL1.1.20. **Sensitive Compartmented Information Facility (SCIF).** A room, group of rooms, or a building accredited for the secure processing and/or storage of Sensitive Compartmented Information (SCI) material. DCS SCIFs are for secure storage only; there is to be no processing or discussion of SCI in DCS SCIFs.

DL1.1.21. **Special Movement.** A precedence designator applied to movement of "nickname" or other qualified material of such urgency that, to prevent mission impairment, it is moved more expeditiously than normal DCS schedules permit. Such shipment must be approved by the Headquarters (HQ), DCS, in advance.

DL1.1.22. **Standardized DCS Addressing Elements.** The standardized two-line address consisting of the DCS account number and name used to address DCS material.

DL1.1.23. **Top Secret Control Officer (TSCO).** A person appointed and assigned by an organization to receipt for, control, store, and transmit Top Secret material.

DL1.1.24. **Transit Time.** The time required for material to move from the originating DCS station to the destination DCS station.

DL1.1.26. **Worldwide Master Account Data Base.** The primary DCS data base containing vital account identification and service information for all authorized DCS customers.
C1. CHAPTER 1

GENERAL PROVISIONS

C1.1. PURPOSE

C1.1.1. Purpose. This Regulation:

C1.1.1.1. Describes DCS operations.

C1.1.1.2. Prescribes procedures for the DCS, the DoD Components, and the Federal Agencies that use the DCS.

C1.1.2. Definitions. DCS terms used in this Regulation are defined in the "Definitions" section in the front matter, above.

C1.1.3. Concept of Operations

C1.1.3.1. The DCS, organized under DoD Directive 5200.33 (reference (a)), shall establish, staff, maintain, and operate an international network of couriers and courier stations for the expeditious, cost-effective and secure transmission of qualified classified documents and material. In all instances, security of material shall be of paramount importance. As a total quality organization, the DCS shall be responsive to the needs of its customers.

C1.1.3.2. The primary methods of maintaining security for classified documents and material entered into the DCS system are as follows:

C1.1.3.2.1. Restricting handling to appropriately cleared personnel.

C1.1.3.2.2. Use of accredited facilities.

C1.1.3.2.3. Continuous accountability for documents or material in the DCS system.

C1.1.3.3. Transportation between DCS stations is normally by scheduled (and opportune) shipment on Air Mobility Command flights, military contract flights, commercial (U.S. flag) aircraft, or common surface carrier. Foreign flag carriers may be considered for special movements if no U.S. flag carriers are available. In that instance, prior coordination with the originator by HQ DCS is required. During
missions, all movement and storage of material must be approved or supervised by the responsible courier.

C1.1.3.4. The DCS shall provide reliable and timely delivery of qualified material consistent with customer requirements, security, and available resources. The DCS shall maintain delivery routing information to outline its scheduled, worldwide movement of material and normal delivery times between DCS stations. DCS customers who desire to plan production and/or work schedules on DCS dispatch and delivery schedules may obtain that information from their servicing DCS station.

C1.1.3.5. Courier duty requires an individual who is mature, trustworthy, responsible, and capable of operating independently. Duty as a dedicated courier shall be restricted to properly credentialed military and civilian personnel assigned to the DCS.

C1.1.3.6. For reasons of economy, some DCS shipments are escorted between DCS stations, or between DCS stations and DCS customers, by designated couriers (see Chapter C3., subsection C.3.3.2., below).

C1.1.3.7. Under peacetime conditions, dedicated DCS couriers are normally not armed. If material in DCS custody is such than an armed escort is necessary, the originating or receiving account is responsible to provide such escort to include support, transportation, and funding. During periods of hostility or contingency, DCS couriers may be armed, as determined by the Commander, DCS.

C1.1.3.8. Dedicated DCS couriers are identified by credentials issued by the Commander, DCS.

C1.1.3.9. If a customer is unable to transport sensitive, mission-essential, nonqualified material in a timely manner by other means, particularly during contingencies or war, the customer may request, by message or letter, a DCS Commander-authorized exception to permit its movement through the DCS.

C1.1.4. DCS Movement System

C1.1.4.1. The DCS provides two levels of service for movement of qualified material, regular and special, which establishes precedence of movement for material handled in the DCS. Some special movement authorizations -- referred to as "nickname" projects -- may be granted for a predetermined period of time. Annual revalidation of such authorization is requested to be forwarded to the HQ DCS no later than 30 days before the current authorization expires (also see paragraph C1.1.4.3.,

DoD 5200.33-R, August 1998
C1.1.4.2. The originator shall determine movement priority of material, to include any requirement for special movement. Priorities should be assigned consistent with the definitions for regular and special movement, and the potential degradation of the user's mission, if the material is delayed. Additionally, during wartime or contingency situations, a supported Combatant Commander must identify priorities for material destined to his or her command based on mission and operational requirements and ensure that the DCS is accorded appropriate airlift priority to meet those requirements. The cost of special movements is the responsibility of the customer.

C1.1.4.3. Normal transit times for DCS material are based on the DCS movement schedule. The DCS shall continually strive to reduce those times by more efficient use of resources. Material shall be delivered to the addressee based on customer requirements or the destination station's schedule of local service. Material may also be picked up at the destination DCS station, using daily "over-the-counter service." The DCS shall not make changes to scheduled deliveries without first coordinating with customers.

C1.1.4.4. A customer may request special movement to move material that must be delivered by a specific date, which cannot be moved within established DCS schedules. That request may be initially made by telephone, to be supported by a message to the HQ DEFCOURIERSVC FT GEORGE G MEADE MD//J3//, not later than 3 working days before the date the material will be made available to the DCS. Special movement requests shall contain the following information:

C1.1.4.4.1. Weight, dimension, and DCS article number, if known.

C1.1.4.4.2. Originators' two-line DCS address.

C1.1.4.4.3. Destination (addressee's two-line DCS address).

C1.1.4.4.4. Date and location at which material shall be made available to the DCS for movement.

C1.1.4.4.5. Date required by the addressee.

C1.1.4.4.6. Fund cite for travel of two couriers and material movement.

C1.1.4.4.7. Points-of-contact at requesting Agency, originator, and
Addressee.

C1.1.4.4.8. Additional remarks, if appropriate.

C1.1.4.4.9. Besides the above, originators requesting revalidation of "nickname special projects" shall indicate the following:

C1.1.4.4.9.1. Required period of movement authorization (e.g., February 1995 through November 1995).

C1.1.4.4.9.2. Frequency of movement (e.g., daily, monthly, quarterly, etc.).

C1.2. POLICIES

C1.2.1. DCS Customers

C1.2.1.1. The DoD Components, the Federal Agencies, and their authorized contractors, or any other organization that may receive or enter qualified material, shall establish a DCS account with their servicing DCS station.

C1.2.1.2. A DCS account holder may be requested to serve as a Consolidated Control Point (CCP) if it would provide economy of service.

C1.2.1.3. Government contracting officials and contracting representatives shall coordinate with the servicing DCS station to establish an account before entering any material into the DCS system. As part of that process, the contracting official or contracting representative shall provide the DCS with the following information for each pertinent contract:

C1.2.1.3.1. Type of material to be received and dispatched.

C1.2.1.3.2. Name, address, and telephone number of the Government contracting official.

C1.2.1.3.3. Contract number and expiration date.

C1.2.1.3.4. Name and address of the contractor.

C1.2.1.3.5. Any other data pertinent to the transportation of the material.
C1.2.2. **DCS Station Host or Support**

C1.2.2.1. The Heads of the DoD Components and the Federal Agencies that host or otherwise support a DCS station shall be responsible for providing DCS units with the following by an inter-service support agreement or a memorandum of understanding:

C1.2.2.1.1. SCIFs that provide adequate material storage and meet administrative space requirements.

C1.2.2.1.2. Vehicles and special purpose equipment that meet the minimum security and safety standards (see Chapter C3., section C3.4., below).

C1.2.2.1.3. Airlift support (as required); Government bills of lading; and transportation requests or military transportation authorizations.

C1.2.2.1.4. Local counterintelligence (CI) and criminal intelligence support, including periodic CI briefings and liaison with local law enforcement agencies and counterintelligence units.

C1.2.2.1.5. Classified and unclassified message and voice transmission capability, IMMEDIATE precedence in the Defense Message Service (DMS) system and **assistance with GCCS/SIPRNET and email connectivity**, and message center service.

C1.2.2.1.6. Personnel and financial support, Uniform Code of Military Justice support (reference (b)), special security office service, billeting and dining facilities, housing support, and medical and/or dental service in accordance with DoD Instruction 4000.19 (reference (c)) and **Transportation Working Capital Fund (TWCF)** financial policy consistent with DoD 7000.14-R (reference (d)).

C1.2.2.1.7. Copies of all inspections, investigations, and audits that pertain to, or have an impact on, DCS operations shall be provided to Headquarters, Defense Courier Service, ATTN: IG, 830 Chisholm Avenue, Fort George G. Meade, MD 20755-5370.

C1.2.2.2. **The Heads of the DoD Components, at which a courier may make an unscheduled stopover during the movement of DCS material, shall provide the following support:**

C1.2.2.2.1. Temporary secure storage for the DCS shipment, including
required guards.

C1.2.2.2. Billeting and messing for couriers.

C1.2.2.3. Transportation support, as outlined in Chapter C3., section C3.4., below.

C1.2.2.4. Communications support, as outlined in, subparagraph C1.2.2.1.5., above.

C1.2.2.3. When specifications in paragraph C1.2.2.1. and C1.2.2.2., above, cannot be met, the DCS must be notified.

C1.2.3. Loss or Compromise of DCS Material

C1.2.3.1. If DCS material is lost, destroyed, compromised, or mishandled, the HQ DEF-COURIERSVC FT GEORGE G MEADE//IG// must be informed by IMMEDIATE message or telephone (DSN) 923-6011 or commercial (301) 677-6011. Agencies originating the materials being transported shall be notified by the most expeditious means possible by the HQ DCS.

C1.2.3.2. If a courier is disabled, the military commander having knowledge of the matter shall inform the HQ DEF-COURIERSVC FT MEADE MD//IG// of the circumstances by IMMEDIATE message or telephone (DSN) 923-6011 or commercial (301) 677-6011.

C1.2.3.3. Military commanders shall assist the DCS in investigating lost, destroyed, compromised, or mishandled material, as required.

C1.2.4. Misuse of the DCS

C1.2.4.1. "Misuse" refers to the intentional or unintentional entry of material, defined in DoD Directive 5200.33 (reference (a)) as "prohibited" or "unqualified," into the DCS.

C1.2.4.1.1. Prohibited Material. That material not authorized entry into the DCS, regardless of classification or other criteria. Any person who introduces prohibited material into the DCS may be punished under applicable Federal law, including the UCMJ (reference (b)). DCS service to customers guilty of entering prohibited material shall be suspended or terminated. Reinstatement of DCS service shall be considered by the Commander, DCS, only after review of the results of the
investigation into this misuse of the DCS system.

C1.2.4.1.2. **Unqualified Material.** Any person who knowingly introduces unqualified material into the DCS may be subject to applicable Federal law and reference (b). DCS service to customers guilty of entering unqualified material into the DCS may be suspended or terminated. Reinstatement of DCS service shall be considered by the Commander, DCS, only after review of the results of the investigation into that misuse of the DCS system.

C1.2.4.2. DCS customers shall initiate appropriate action against any person who introduces prohibited or unqualified material into the DCS system.

C1.2.4.3. Personnel performing duties under this Regulation are subject to DoD Directive 5030.49 (reference (e)).

C1.2.4.4. Material not owned or controlled by the U.S. Government (e.g., personal property) shall not be imported into or exported out of the United States by the DCS. Any military or civilian employee who violates that prohibition shall be referred to the cognizant official for possible criminal prosecution under applicable Federal statute or other appropriate disciplinary action.

C1.2.4.5. Suspected or known incidents of fraud, waste, or abuse of the DCS system shall be reported by PRIORITY message to HQ DEFCOURIERSVC FT GEORGE G MEADE//IG//.

C1.2.5. **DCS Forms.** DCS forms shall be ordered or reproduced locally by DCS stations, when possible, and provided to DCS customers. Those forms are required to make DCS transactions and to maintain a continuous accountability between originator and addressee. The use of DCS forms for other than their intended purpose is prohibited.

C1.2.6. **Waivers or Exceptions.** To the maximum extent possible, requests for waivers or exceptions to the provisions of this Regulation or DoD Directive 5200.33 (reference (a)) shall be submitted in writing. The Commander, DCS, is delegated authority to grant limited duration exception for movement of unqualified material. All other requests for waiver or exception must be submitted to the DASD(I&S).
C2. CHAPTER 2
ADMINISTRATION

C2.1. PERSONNEL POLICY

C2.1.1. Assignment of DCS Personnel

C2.1.1.1. In accordance with DoD Directive 5200.33 (reference (a)), the Secretaries of the Military Departments shall assign qualified personnel to the DCS through AMC/DP, consistent with the Joint Manpower Program approved by the Chairman of the Joint Chiefs of Staff.

C2.1.1.2. Military personnel assigned to duty with the DCS shall not be assigned conflicting additional duties outside the DCS without the concurrence of the DCS station commander or chief.

C2.1.1.3. Qualifications of military personnel for assignment to courier duty with the DCS are as follows:

C2.1.1.3.1. Must be a U.S. citizen.

C2.1.1.3.2. Must be in grade E-5 (or above), unless waived by the HQ DCS.

C2.1.1.3.3. Enlisted personnel must have the following scholastic achievement:

C2.1.1.3.3.1. Be a high school graduate, or equivalent.

C2.1.1.3.3.2. Achieved a minimum score of 100 in the aptitude area of the U.S. Army General Test or;

C2.1.1.3.3.3. Achieved a minimum score of 165 on the U.S. Navy General Classification Test (Clerical and/or Arithmetic score), or Armed Services Vocational Aptitude Battery (ASVAB) tests 5-7 (Work Knowledge - Numerical Operations - Attention to Detail, or ASVAB tests 8-14 and J1 (Verbal - Numerical Operations - Coded Speed) or,

C2.1.1.3.3.4. Achieved a minimum score of 65 in the General Area
C2.1.1.3.4. Must meet the following physical qualifications:

C2.1.1.3.4.1. Rated a minimum of 1 in the categories of Physical capacity or stamina (P), Upper Extremities (U), Lower Extremities (L); Hearing and Ear (H), Psychiatric (S) and rated a minimum of 2 in Eyes (E) and have no physical condition that prevents frequent travel aboard aircraft.

C2.1.1.3.4.2. Minimum Service physical fitness, weight, and body fat standards.

C2.1.1.3.5. Character traits, performance evaluations, and other qualifications.

C2.1.1.3.5.1. Individual must possess mature judgment, be highly reliable, and be diplomatic and courteous in deportment.

C2.1.1.3.5.2. U.S. Army personnel - Noncommissioned Officer Efficiency Reports for the last 5 years must indicate "yes" in Part IVa, a minimum rating of "success" in parts IVb through IVf, and at least "fully capable" in Part V.

C2.1.1.3.5.3. U.S. Navy personnel - Have a minimum overall average of at least 3.8 on their last 5 evaluations.

C2.1.1.3.5.4. U.S. Air Force personnel - Have received a minimum rating of 5 in Section IV of their last 5 Enlisted Performance Reports.

C2.1.1.3.5.5. Must possess a valid civilian (State) driver's license for wheeled vehicles and be an experienced driver.

C2.1.1.3.5.6. Must hold a final Top Secret clearance based on a Special Background Investigation (SBI), Single Scope Background Investigation (SSBI), or Single Scope Background Investigation Periodic Reinvestigation (SSBI-PR), completed with favorable results within the last 5 years and be eligible for access to Sensitive Compartmented Information SCI.

C2.1.1.3.5.7. Must attend and successfully complete the DCS training school before reporting to their initial DCS duty station.
couriers:

C2.1.1.4.1. Must be a U.S. citizen.

C2.1.1.4.2. Must be in grade General Schedule GS-5/Wage Board WG-5, or above.

C2.1.1.4.3. Must have no physical or mental limitations that would interfere with the performance of courier duties.

C2.1.1.4.4. Must have displayed character, duty performance, and knowledge supporting accreditation as a DCS courier.

C2.1.1.4.5. Must possess mature judgment and be diplomatic and courteous in deportment.

C2.1.1.4.6. Must possess a valid civilian (State) driver's license for wheeled vehicles and be an experienced driver.

C2.1.1.4.7. Must hold a final Top Secret clearance based on an SBI, SSBI, or SSBI-PR completed with favorable results within the last 5 years and be eligible for access to SCI.

C2.1.1.4.8. Must attend and successfully complete the DCS Training School before being accredited to escort DCS material.

C2.1.1.5. Preliminary Screening Interview

C2.1.1.5.1. The commanders of military personnel nominated for assignment to the DCS shall ensure that the nominee is interviewed in accordance with DoD C-5105.21-M-1 (reference (f)) to determine his or her suitability for assignment to the DCS. Interview reports shall be processed in a manner to ensure protection of personnel security data in accordance with applicable Service directives. The results of the SCI screening interview and one copy of the individual's DD Form 398, "DoD Personnel Security Questionnaire (PSQ) shall be forwarded to the Commander, Defense Courier Service, ATTN: SSO, 830 Chisholm Avenue, Fort George G. Meade, MD 20755-5370. Interviews shall also be in accordance with the following:

C2.1.1.5.1.1. Army personnel - Tables 8-2 and 8-4 of AR 614-200 (reference (g)).
C2.1.1.5.1.2. Navy personnel - Since Navy personnel selected for courier duty are from the Cryptologic Administration Branch, additional special screening requirements are normally unnecessary.

C2.1.1.5.1.3. Air Force personnel - AFI 36-2110, items 91K and 9KA (reference(h)).

C2.1.1.5.2. Personnel nominated for command positions shall be approved by the Commander, DCS, before assignment.

C2.2. TOUR OF DUTY

C2.2.1. Normal Tour. A normal DCS tour of duty for military personnel shall be 3 years in the continental United States (CONUS). The normal overseas tour shall be defined by the parent Service. Tour extensions or continued assignment to DCS duty are contingent on written approval of the Commander, DCS.

C2.2.2. Curtailing Tour of Duty. Tours of duty may be curtailed at the convenience of the parent Service, or when the individual is no longer qualified to perform DCS duties. The Commander, DCS, may terminate a member's assignment for demonstrated unreliability, irresponsibility, inability to function in the DCS operational environment, or loss of security clearance and/or access eligibility.
C3. CHAPTER 3
OPERATIONS

C3.1. ESTABLISHING AN ACCOUNT AND RECEIVING SERVICE

C3.1.1. Establishing an Account

C3.1.1.1. Each DoD Component, Federal Agency, or other organization that uses the DCS system to move qualified material shall establish an account at its servicing DCS station.

C3.1.1.2. The DoD Components and the Federal Agencies that issue classified contracts shall submit a written request (classified, if required) for service to the servicing DCS station. Minimally, the request shall include the information shown in the subparagraphs C3.1.1.2.1. through C3.1.1.2.4., below. Questions or problems in establishing contractor accounts should be referred to HQ, Defense Courier Service, ATTN: J-32, 830 Chisholm Avenue, Ft. George G. Meade, MD 20755-5370.

C3.1.1.2.1. Name and location of contractor.

C3.1.1.2.2. Contract Number.

C3.1.1.2.3. Duration of contract.

C3.1.1.2.4. Name and telephone number of the COAR.

C3.1.1.3. Contractors for classified contracts shall contact the local or servicing DCS station. They shall be asked to present contract documentation; i.e., the information listed in paragraph C3.1.1.2. above. The contractor must also indicate whether a Communications Security (COMSEC), SCI, or non-SCI account is necessary to support the contract.

C3.1.1.4. Authorized users may obtain one-time service by coordinating with the servicing DCS station and presenting a letter signed by the head of the organization. Personnel authorized to enter and/or receive material must be identified in the letter by name, social security number (SSN), and signature sample.

C3.1.1.5. DCS couriers shall transact delivery and pickup of qualified
material only with individuals whose names and signatures have been properly authenticated and validated. Delivery and pickup of two-person control material shall be in accordance with Joint Pub 1-04 (reference (i)).

C3.1.1.6. The personnel security clearance of individuals representing the user who will be authorized to enter and/or receive material through the DCS must be authenticated in writing as prescribed by the DCS. Personnel authorized to authenticate security clearance information are as follows:

C3.1.1.6.1. Within DoD Components, the commander, the commanding officer, the deputy commander, the executive officer, the TSCO, the special security officer (SSO), the COMSEC custodian, or an authorized representative.

C3.1.1.6.2. The Head or authorized representative of a Federal Agency.

C3.1.1.6.3. Authorized DoD contractor representatives.

C3.1.1.6.3.1. For SCI contracts, the security clearance of personnel shall be verified as follows:

C3.1.1.6.3.1.1. Army and Air Force contractors shall forward their authentications through their SSO.

C3.1.1.6.3.1.2. Navy contractors shall forward their verifications through the Director, Office of Naval Intelligence, ATTN: ONI-532-O/SCI Contracts Management Division, 4300 Suitland Road, Washington, DC 20395.

C3.1.1.6.3.1.3. National Security Agency (NSA) contractors shall forward their authentications through the NSA Industrial Security Officer, ATTN: M52.

C3.1.1.6.3.2. Contractors of the DoD Components and the Federal Agencies shall forward prescribed documentation to the Head of the DoD Component or the Federal Agency, as appropriate, for verification. To accomplish verification, the DoD Components and the Federal Agencies shall type the following statement on the authentication document before returning it to the contractor for submission to the supporting DCS station:

- beginning of statement -
"THIS CERTIFIES THAT THE INDIVIDUALS IDENTIFIED HEREIN POSSESS A VALID SECURITY CLEARANCE TO THE DEGREE OF THE HIGHEST CLASSIFIED MATERIAL THAT COULD BE RECEIVED AND/OR ENTERED BY THE ACCOUNT."

SIGNED:

NAME, POSITION, AND ORGANIZATION:

DATE:

- end of statement -

C3.1.1.7. After receiving the verified authentication document, and a copy of the DD 254 or request for service, the servicing DCS station shall provide the customer with the DCS account number to be used when shipping material through the DCS. Customers with multiple account numbers may list more than one account number on a single authentication document, if they desire. The controlling offices for DCS account numbers are, as follows:

C3.1.1.7.1. Accounts requiring COMSEC service shall be identified by the Central Offices of Record.

C3.1.1.7.2. Authorized DoD Components and Federal Agencies, and contractors classified and unclassified contracts, requiring non-COMSEC service receive account numbers from the servicing DCS station.

C3.1.1.7.3. Questions or problems in establishing classified (special access) non-COMSEC contractor accounts should be referred to HQ, Defense Courier Service, ATTN: J32.

C3.1.1.8. User activities must identify and submit authentication documentation on a minimum of two persons for each DCS account.

C3.1.1.9. After the servicing DCS station has received the authentication documentation, one copy shall be returned to the customer. The authentication document remains valid for worldwide DCS service until:

C3.1.1.9.1. A contract expires.

C3.1.1.9.2. The authorizing official changes.
C3.1.1.9.3. Additions or deletions are made to listed personnel.

C3.1.1.9.4. Corrections are made to an individual's name, SSN or signature.

C3.1.1.9.5. There is a change in the DCS two-line address that cannot be neatly completed on the existing, valid authenticating document.

C3.1.1.9.6. Requested by the servicing station.

C3.1.1.9.7. The account is disestablished.

C3.1.2. Scheduling DCS Service

C3.1.2.1. Customers located a significant distance from the supporting DCS station will normally be serviced by an established DCS schedule. When practical, customers in a reasonable proximity shall be asked to transact business over-the-counter at the station. Local arrangements shall be coordinated between the station and its customers.

C3.1.2.2. Customers may arrange to have their material entered and received through another consenting DCS account by typing or printing a statement to authorize that on all copies of their authentication documentation. DCS customers that provide that service are known as Consolidated Control Points (CCPs). A sample CCP and/or supplemental authorization is shown below:

- beginning of statement -

"PERSONNEL LISTED ON (AUTHENTICATION DOCUMENTATION) FOR (ACCOUNT NUMBER AND SHORT TITLE) (list all applicable accounts) ARE AUTHORIZED TO ENTER AND/OR RECEIVE MATERIAL ON BEHALF OF THE ACCOUNT(S) LISTED IN THIS DOCUMENTATION. THIS DOES NOT AUTHORIZE THEM TO OPEN THIS MATERIAL."

TYPED OR PRINTED NAME, RANK, GRADE, AND TITLE OF AUTHORIZING OFFICIAL

- end of statement -
C3.1.3. **Entering Material into the DCS**

C3.1.3.1. The servicing DCS station shall *affix a unique bar code label* to each piece of material entering the DCS to maintain accountability during transit.

C3.1.3.2. The servicing DCS station may assign *a roll of unique bar code labels* to volume customers to facilitate their preparation of material and related forms. Those *bar code labels* shall be monitored closely and unused *labels* must be accounted for by the *user*.

C3.1.3.3. A receipt, as prescribed by the DCS, shall be accomplished by the customer and accompany all material entered into the DCS system.

C3.1.3.4. The receipt must be signed by a customer representative who has been authenticated to the DCS for the account in question. Identification bearing a photo and sample signature is also required.

C3.1.3.5. The appropriate courier shall acknowledge acceptance of the material by signing the receipt.

C3.1.3.6. The servicing DCS station shall retain the original of the receipt bearing the signatures of the customer representative and the *DCS courier*. A copy shall be returned to the customer.

C3.1.4. **Receiving Material from the DCS**

C3.1.4.1. Each piece of material that is delivered to a customer shall be listed on an invoice prescribed by the DCS which, as a minimum, shall include the article number and two-line address.

C3.1.4.2. A courier shall deliver material only to an individual whose name and signature have been validated to the DCS.

C3.1.4.3. On delivery, the recipient shall sign the invoice indicating the number of pieces received and the date and time of delivery. The servicing DCS station retains the original copy; the recipient is provided a copy.

C3.2. **MATERIAL AND PACKAGING REQUIREMENTS**

C3.2.1. **Preparing and Marking Materials for DCS Movement**
C3.2.1.1. No item entering the DCS shall weigh over 300 pounds, or exceed dimensions 45 1/2" X 26" X 22", except those items for which the physical structure prohibits breakdown into smaller units. The minimum size of a "flat" (envelope) entered into the DCS shall meet the standard 8 1/2" X 11" in size; small boxes and/or packages shall have a minimum total dimension of 26"; e.g., girth (twice its width plus twice the height) added to the length. Requests for exception to weight or size restrictions shall be submitted to the servicing DCS station, in advance.

C3.2.1.2. Items shall be addressed with the standardized DCS two-line address; the Army/Air Post Office, the Fleet Post Office, and the street addresses shall not be used.

C3.2.1.3. Envelopes, labels, or tags with visible "postage and fees paid" indicia shall not be used.

C3.2.1.4. Security classification markings, special security caveats, and other extraneous markings must not appear on the outer wrapper.

C3.2.1.5. Nickname and/or special project markings previously approved by the DCS must be placed on the outer wrapper.

C3.2.1.6. Detailed information on wrappings, marking, and preparing material for movement is available from the servicing DCS station.

C3.2.2. Packaging Material

C3.2.2.1. Generally, all packaging materials are permissible if they afford contents with concealment and protection, preclude physical and/or visual access, are sturdy, and pose no hazard to handlers. Use of metal strapping is specifically prohibited. For assistance and clarification, customers should contact their servicing DCS station.

C3.2.2.2. U.S. Postal Service bags, pouches, or sacks shall not be used for DCS material.

C3.2.2.3. DoS bags, pouches, or sacks shall not be used for non-DoS material, except in specific, previously coordinated situations.

C3.3. OPERATIONS
C3.3.1. **DCS Support to U.S. Mobile Units**

C3.3.1.1. Mobile and afloat units with current verified authentication documentation on file with the DCS may obtain courier service from any DCS station, worldwide.

C3.3.1.2. In areas where the DCS is not available directly, the following applies:

C3.3.1.2.1. Material may be entered into the DCS by designating an appropriately cleared command messenger to deliver the material to an appropriately cleared official and/or representatives of any U.S. military or DoS component. The designating command must ensure that this messenger is cleared for access to any material that may be received by that military or DoS component. Until acceptance by the DCS, material shall be accounted for by an originator's control number that is to appear on the receipt that accompanies the material. Upon return to the servicing DCS station, the receipt will be annotated with the appropriate DCS article number. Originators shall prepare sufficient copies of the receipt to permit intermediate activities to retain a copy.

C3.3.1.2.2. Material may be delivered to mobile or afloat units through an appropriately cleared official and/or representative of any U.S. military or DoS component in the area. The servicing DCS station shall coordinate with the mobile unit before releasing the articles to the delivering military and/or DoS component. If the delivering DCS station does not receive acknowledgment of receipt from the addressee within 10 days, it shall initiate follow-up action.

C3.3.1.2.3. In countries where the material may be subject to search and seizure by foreign customs or other local officials, the DoS Diplomatic Courier Service shall normally convey the material to the delivering military and/or State component.

C3.3.1.2.4. When it is not feasible to deliver material through an intermediary, the originator or addressee shall provide an appropriately cleared command messenger to rendezvous with the DCS courier.

C3.3.1.2.5. If several mobile units operating together designate an appropriately cleared command messenger to enter and/or receive material for all units concerned, the appropriate DCS station must be advised of this designation by message.

C3.3.2. **Designated Couriers**
C3.3.2.1. DCS couriers may designate appropriately cleared active duty military or, when authorized by Commander, DCS, U.S. Government civilian personnel (in grade GS-5, or above) to escort and safeguard and/or assist in providing required security for a DCS shipment. In such instances, it is the responsibility of the DCS courier to confirm the security clearance and or access of the potential designee(s) in advance, as follows:

C3.3.2.1.1. Hand-Carried Material. Individuals designated to hand-carry DCS material aboard aircraft are considered to have direct access to the material, and must have a Top Secret clearance and access to SCI.

C3.3.2.1.2. Cargo and/or Belly Loaded Material. When DCS material is loaded in the cargo and/or belly area, designated couriers are not considered to have direct access. In such cases, it is not mandatory that designees have a Top Secret clearance and access to SCI. However, every effort shall be made to select personnel who, minimally, have a Secret clearance.

C3.3.2.1.3. On occasion, DCS material may be placed in both the passenger cabin and cargo compartment. In such cases, two couriers, with clearance and access as indicated in subparagraph C3.3.2.1.1., above, must be designated.

C3.3.2.1.4. If the potential designee's security clearance and access are not already known by the DCS courier, he or she shall confirm clearance and access by sighting the potential designee's military or civilian identification and travel orders, by contacting the HQ DCS, or by direct contact with the potential designee's parent security office.

C3.3.2.2. Designated couriers shall not be used for escort aboard aircraft when the aircraft is scheduled to make an intermediate stop, unless they can be met by a dedicated DCS or provisional courier at the intermediate location.

C3.3.2.3. The following individuals shall not be designated as "couriers" under any circumstances:

C3.3.2.3.1. Medical, dental, nursing corps, and medical services corps personnel.

C3.3.2.3.2. Chaplains.

C3.3.2.3.3. Credentialed special agents of the U.S. Army Criminal
Investigation Command, the Naval Criminal Investigative Service, the Air Force Office of Special Investigation, and the Defense Investigative Service.

C3.3.2.3.4. Retired military personnel.

C3.3.2.3.5. Reserve personnel not currently on active duty. (NOTE: Inactive duty Reservists and/or Air Reserve Technicians on military flight orders may be designated.)

C3.3.2.3.6. Personnel on or returning from emergency leave status.

C3.3.2.3.7. Otherwise qualified passengers accompanied by dependents.

C3.3.2.4. Active duty military members eligible for designation and traveling in a duty status are obligated to act as designated couriers when requested to do so. If a qualified military member in a duty status refuses to serve as a courier:

C3.3.2.4.1. The DCS station commander shall forward a complete report of the circumstances to the HQ DEFCOURIERSVC FT GEORGE G MEADE//IG//.

C3.3.2.4.2. If the circumstances warrant, the Commander, DCS, shall prefer charges to the appropriate Military Department or command.

C3.3.2.5. Qualified crew members of a military aircraft may be designated as "couriers" with the aircraft commander's consent.

C3.3.2.6. When no active status passengers are available, qualified military passengers in leave status may be designated as couriers, if they consent.

C3.3.3. Provisional Couriers

C3.3.3.1. Provisional couriers perform primary duties outside the DCS and are appointed by their parent organization to provide limited administrative and operational assistance to the DCS.

C3.3.3.2. Individuals appointed to act as provisional couriers must meet all the personal requirements and assignment criteria in Chapter C2., above.

C3.3.3.3. The HQ DCS shall determine where provisional couriers are needed and coordinate with the host organization about their appointment.

C3.3.3.4. The HQ DCS and the supporting DCS station shall provide
administrative, logistical, and operational support to provisional couriers in their DCS functions.

C3.4. COURIER STATION EVALUATION AND VEHICLE STANDARDS

C3.4.1. Evaluation of DCS Station Operations

C3.4.1.1. The Commander, DCS, shall review and evaluate each DCS station's technical and/or operational proficiency and security to ensure that total quality service is provided to its internal and external customers. All DCS personnel shall enhance total quality service in the DCS by prompt attention and continuous improvements of DCS processes.

C3.4.1.2. The Commander, DCS, shall also conduct regularly scheduled inspections of DCS operations to ensure the integrity of the system and to meet the requirements of appropriate DoD Directives and Regulations.

C3.4.1.3. All DCS stations shall undergo periodic inspection by drug and bomb detection dog units. Such inspections shall be scheduled by cognizant DCS station commanders. Inspection results shall be reported to the HQ DEFCOURIERSVC FT GEORGE G MEADE/IG-SID/.

C3.4.2. DCS Vehicle Standards

C3.4.2.1. All vehicles used by the DCS must meet criteria established by the Commander, DCS, and conform to criteria in DoD Instruction 6055.4 (reference (j)). Vehicles must be above average in reliability, safety, and energy efficiency for vehicles of their class. The Commander, DCS, may curtail service in areas where secure and reliable vehicles are not available.

C3.4.2.2. Security standards for DCS-assigned or leased vehicles are, as follows:

C3.4.2.2.1. The cargo compartment of vehicles with separate cargo boxes shall be constructed of 16-gauge metal and completely closed on sides, top, and bottom. All cargo doors shall be secured with double-rod locking devices or other mechanisms permitting double-locking with high-security padlocks.

C3.4.2.2.2. Vans shall have their cargo compartment separated from the cab by 16-gauge steel mesh or steel grating. Cargo doors shall be secured with at least
two locking devices.

C3.4.2.2.3. Military sedans and station wagons, without modifications, are authorized to transport small quantities of courier material in the passenger compartment.

C3.4.2.2.4. In areas where DCS elements are required to operate off-base, vehicles shall be minimally equipped with the following:

C3.4.2.2.4.1. Two-way mobile radios or mobile or cellular telephones.

C3.4.2.2.4.2. Hidden fuel shut-off valves.

C3.4.2.2.4.3. Auxiliary ignition switches, or other disabling devices.

C3.4.2.2.4.4. Lockable passenger compartment cab.

C3.4.2.2.4.5. AM/FM radio.

C3.4.2.2.4.6. Air conditioning where appropriate for the climate.

C3.4.2.3. Requirements for special purpose equipment shall be coordinated with the host-installation commander. Assigned equipment shall conform to established DoD safety criteria and provide sufficient working capacity to meet the station's needs.

C3.4.2.4. In areas outside CONUS having a high security threat, DCS vehicles shall be modified to blend with the local environment and maintain a low profile as the local security and/or terrorism threat warrants.

C3.4.2.5. DCS station commanders may grant one-time authority to use a privately owned vehicle or temporary replacement vehicle to prevent mission degradation.
AP1. APPENDIX 1

DoD DIRECTIVE 5200.33

Department of Defense
DIRECTIVE

NUMBER 5200.33
December 7, 1994

Administrative Reissue Incorporating Change 1, August 25, 1998
ASD(C3I)

SUBJECT: Defense Courier Service (DCS)

References: (a) DoD Directive 5200.33, subject as above, September 30, 1987
(herby canceled)
(c) DoD 5025.1-M. "DoD Directives System Procedures," August 1994,
authored by DoD Directive 5025.1, June 24, 1994
(d) Chairman of the Joint Chiefs of Staff Instruction 3260.01, "Joint Policy Governing Positive Control Material and Devices," July 31, 1995
(e) through (i), see enclosure E1.

1. REISSUANCE AND PURPOSE

This Directive reissues reference (a) to update policy and responsibilities for the DCS; establishes the DCS as a direct reporting unit under the Commander Air Mobility Command (CDR AMC); and authorizes the publication of reference (b), in accordance with reference (c).

2. APPLICABILITY AND SCOPE

This Directive applies to:

2.1. The Office of the Secretary of Defense, the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Inspector General of the Department of Defense, the Uniformed Services University of the
Health Sciences, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as "the DoD Components").

2.2. Other activities of the U.S. Government, U.S. Government contractors, foreign governments, and the North Atlantic Treaty Organization (NATO) seeking to use the services of the DCS.

3. POLICY

It is DoD policy that:

3.1. The DCS shall establish, staff, operate, and maintain an international network of couriers and courier stations for the expeditious, cost-effective, and secure transmission of qualified classified documents and material. In all instances, the security of documents or material shall be the primary objective. The DoD Components and contractors shall, to the maximum extent possible, use the services of the DCS for transmission of qualified classified documents or material requiring escort by courier.

3.2. DCS users shall ensure that only qualified classified material is entered into the DCS system. Qualified and prohibited material are delineated in enclosure E2.

3.3. Outside the United States, qualified material shall be transported by the DCS only to or from those locations where the DCS has an established operational presence in support of U.S. Armed Forces and it has a reasonable assurance that DCS material will not be subject to search and seizure by foreign customs or other foreign officials. (The DCS transfers materials to the Department of State (DoS) for final delivery in foreign countries when that is not the case.) Requests to expand DCS service to other areas outside the United States must be approved by the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence (ASD(C3I)).

3.4. DCS support during contingencies or hostilities shall be provided in accordance with requirements of the Chairman of the Joint Chiefs of Staff and the Combatant Commanders.

3.5. The DCS system shall provide “two person control” only for that nuclear command and control materiel delineated in Chairman of the Joint Chiefs of Staff Instruction 3260.1 and Chairman of the Joint Chiefs of Staff Instruction 3231.01 (references (d) and (e)).
3.6. The Commander, DCS, shall be an officer (O-6 position) with selection made by the CDR AMC. The normal tour of duty for that position shall be 3 years.

4. RESPONSIBILITIES

4.1. The Assistant Secretary of Defense for Command, Control, Communication, and Intelligence shall:

4.1.1. Provide security policy and procedural guidance for the DCS operation through issuance of DoD Instructions, Regulations and other guidance, as required, and oversee implementation of such policies and procedures.

4.1.2. Authorize exceptions to this Directive. That authority may be delegated to the Deputy Assistant Secretary of Defense (Intelligence and Security), and a single designee.

4.2. The Heads of the DoD Components shall:

4.2.1. Coordinate their courier requirements and priorities with the DCS, including requirements of their contractors and Foreign Military Sales (FMS), consistent with DoD 7000.14-R (reference (f)).

4.2.2. Program and budget for requirements and reimburse the DCS for all services provided, including special delivery services.

4.2.3. Provide support in emergency situations to DCS couriers necessary to safeguard DCS shipments, in accordance with DoD Instruction 4000.19 (reference (g)).

4.2.4. Assess the responsiveness of the DCS to their operational needs and advise the CDR, AMC of any problem areas.

4.3. The Secretaries of the Military Departments shall:

4.3.1. Ensure that qualified personnel are assigned to carry out the DCS mission.

4.3.2. In coordination with the DCS, and in accordance with reference (g)), provide, support, and maintain courier stations at locations determined to be consistent with mission requirements.
4.4. The Commander, Air Mobility Command, shall:

4.4.1. Exercise combatant command authority over the DCS.

4.4.2. Coordinate DCS operations, as appropriate, with other Commands and Agencies.

4.4.3. Keep the ASD(C3I) informed, through the Chairman of the Joint Chiefs of Staff, of significant matters about DCS activities.

4.4.4. Provide advice and recommendations on matters in the areas of responsibilities assigned to the DCS.

4.4.5. Establish program and budget requirements for normal operations and support costs of the DCS as part of the AMC Transportation Working Capital Fund (TWCF).

4.4.6. Provide for movement of qualified DCS material during war, contingencies, and other emergencies in accordance with priorities established with supported activities.

4.5. The Commanders of the Combatant Commands shall:

4.5.1. Coordinate with host-nation officials to develop and implement procedures for the protection of DCS material from search and seizure by their customs or other agency officials.

4.5.2. During wartime or contingency situations, identify priorities for material destined to his or her command based on mission and operational requirements and ensure that the DCS is accorded appropriate airlift priority to meet these requirements.

4.6. The Heads of Non-DoD U.S. Government Departments and Agencies that use the DCS shall:

4.6.1. Coordinate their courier requirements and priorities, including requirements of their sponsored contractors and the FMS, consistent with DoD 7000.14-R (reference (f)).

4.6.2. Provide support, in their respective fields of responsibility, to the Commander, DCS, as required to carry out the assigned mission of the DCS.
4.6.3. Assess the responsiveness of the DCS to their operational needs and advise the ASD(C3I) of any problem areas.

4.6.4. Budget for, and reimburse the DCS for, the services it provides, in accordance with 31 U.S.C. 1535 (reference (h)) unless otherwise provided by statute.

5. EFFECTIVE DATE AND IMPLEMENTATION

This Directive is effective immediately. DoD 5200.33-R (reference (b)) constitutes implementation of this Directive.

John M. Deutch
Deputy Secretary of Defense

E2. ENCLOSURE 2

QUALIFIED AND PROHIBITED MATERIAL

E2.1. QUALIFIED MATERIAL

The following categories of material qualify for DCS handling:

E2.1.1. DoD Material

E2.1.1.1. Top Secret information.

E2.1.1.2. Classified cryptographic and communication security material.

E2.1.1.3. Classified cryptologic material.

E2.1.1.4. Cryptographic keying material designated and marked “CRYPTO” by the National Security Agency.

E2.1.1.5. Sensitive Compartmented Information.

E2.1.1.6. Air and spaceborne imagery material classified SECRET or higher.

E2.1.1.7. Controlled cryptographic items for shipment outside the 48 contiguous States when no other means of secure transportation is available.

E2.1.1.8. FMS material, if otherwise qualified.

E2.1.1.9. Any U.S. classified material that cannot be transmitted in U.S. custody by any other means.

E2.1.1.10. Single Integrated Operational Plan material and SECRET or more highly classified operational and/or targeting support material.

E2.1.1.11. End of Cruise Data Packages.

E2.1.2. Other Qualified Material

E2.1.2.1. DoS-accompanied diplomatic courier pouches.

E2.1.2.2. Material in paragraphs E2.1.1.1. through E2.1.1.9. of this
enclosure, above, of other U.S. Government Agencies.

E2.1.2.3. Material in paragraphs E2.1.1.1. through E2.1.1.8., above, of NATO.

E2.1.2.4. Material in paragraphs E2.1.1.1. through E2.1.1.7., above, of foreign governments when used for combined operations.

E2.1.2.5. Material in paragraphs E2.1.1.1. through E2.1.1.9., above, of Federal Government contractors when specifically provided for in their contracts.

E2.2. PROHIBITED MATERIAL

The following material is not authorized entry into the DCS system, regardless of classification or other qualifying criteria:

E2.2.1. Contraband, including controlled substances (particularly narcotics and dangerous drugs), as defined in Section 812 of 21 U.S.C. (reference (i)).

E2.2.2. Explosives, ammunition, firearms, and their components.

E2.2.3. Radioactive material, etiological, or other material hazardous to personnel.

E2.2.4. Flammables.

E2.2.5. Liquids.

E2.2.6. Batteries (prohibited from air shipments by the Federal Aviation Administration or international regulations), except as coordinated with the Commander, DCS, in advance.

E2.2.7. Currency, military payment certificates, bonds, securities, precious metals, jewels, postage stamps, or other negotiable instruments.
