3.1.4. In any case where women are employed as chauffeurs, there shall be substituted suitable articles of women’s wear that shall be similar in quality to the articles of uniform listed above.
3.2. Care and Wear of Uniforms

3.2.1. Employees receiving allowances for uniforms shall be required to keep uniforms in a clean, neat, condition at all times and to wear them in the following manner:

3.2.1.1. Coats: Shall be worn and fully buttoned at all times.

3.2.1.2. Trousers: Shall be worn not higher than the top of the arch of the foot so that socks will not show between trouser bottom and shoe top.

3.2.1.4. Overcoats: When worn, shall be fully buttoned and belted.

3.2.1.5. Ties: Shall be neatly tied with the conventional four-in-hand knot.

4. AMOUNT AND PAYMENT OF ALLOWANCES

4.1. Periods Covered By Allowance Payments. The period covered by the initial allowance is 1 year. The period covered by each replacement allowance is 3 months. Allowance payments for identical uniform requirements, that overlap these periods, are not authorized.

4.2. Initial Allowances

4.2.1. An initial allowance of $100.00 will be paid to help defray the initial cost of uniforms and will be paid as of the effective date of this Instruction if the employee is currently required to wear a uniform, or on the date thereafter an employee is initially required to wear a uniform.

4.2.2. Transfer or reemployment in the same occupational group -- Where the same uniform requirements apply upon transfer or reemployment, the period covered by the last allowance payment must come to an end before a further allowance payment may be made. For example, a chauffeur paid an initial allowance, who at any time within the year transfers to a chauffeur position at another activity within the Department of Defense where the same uniform is required, receives only a replacement allowance when it would normally be due.
4.2.3. Payment of additional initial allowance -- An employee who, following payment of an initial or replacement, is transferred to or reemployed in a position with different uniform requirements, is paid the initial allowance appropriate to the new position. Also, an employee who, following payment of an initial or replacement payment allowance, leaves the position and is later reemployed in the Department of Defense in a line of work where the same uniform is required, is paid the initial allowance upon reemployment provided a period of at least one full year has elapsed since the end of the period covered by the last allowance payment.

4.3. Replacement allowances. Replacement allowances will be paid quarterly in advance of service performed, starting 12 months after the initial allowance. The amount of replacement allowances is based on a replacement of 30 percent of the total average cost of the uniform annually as determined by an ad hoc committee of inter-Service representatives appointed for this purpose.

4.4. Chauffeurs employed prior to the effective date of this Instruction who possess uniforms which do not adhere to the above standards will be permitted to wear such uniforms until replacement is required. Supervisors shall insure that as replacements are purchased they shall conform to the standards set forth in this Instruction.

5. EFFECTIVE DATE

The provisions of this Instruction shall be effective immediately.
