1. PURPOSE

This Directive replaces reference (a), to update DoD policy, procedures, and responsibilities for the selection and training of personnel to serve in security assistance positions and for processing and approving security assistance organizations (SAOs) joint manpower programs (JMPs), in accordance with references (b), (c), (d), and (e).

2. APPLICABILITY

This Directive applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Organization of the Joint Chiefs of Staff (OJCS), the Unified and Specified Commands, the Defense Agencies, and the SAOs (hereafter referred to collectively as "DoD Components").

3. DEFINITION

Security Assistance Organizations (SAOs). All DoD Component elements, regardless of actual title, located in a foreign country with assigned responsibilities for carrying out security assistance management functions under Section 515 of reference (e).

4. PROCEDURES

4.1. General Criteria for Selection to SAO Positions

4.1.1. Military and civilian personnel selected to serve in an SAO shall possess the demonstrated personal and professional qualifications necessary to carry out effectively the functions to which they are assigned. It is essential that personnel are screened carefully, to ensure that the selectee has the appropriate qualifications and experience. Detailed criteria are at enclosure 1.

4.1.2. Personnel will not be selected for SAO duty if they or their accompanying dependents have a history of personal or financial misconduct, or have medical, emotional, or educational problems that would affect adversely the individual's ability to perform assigned duties, considering the social and environmental situation of the locale to which they are being assigned. Consideration also shall be given, for an accompanied assignment, to family compatibility to the place and type of duty, to include size of family and age of children.

4.1.3. Nominees to the position of chief of an SAO shall be senior in rank or in date of rank to all other personnel of the SAO. A waiver may be granted only by the Director, Defense Security Assistance Agency (DSAA).

4.1.4. The position of chief of an SAO shall be designated a key billet. Other SAO positions shall be designated key billets if the functions of the positions are related directly to management of security assistance programs requiring continuity of effort and specialized experience and training. For the purpose of this Directive, these personnel are identified as SAO management personnel. Key billets shall be identified

in the SAO JMP and established as prescribed by DoD Directive 1315.7 (reference (f)). SAO positions designated as key billets will require the individual to serve the accompanied by dependents tour length that is prescribed for the country of assignment, unless overriding circumstances dictate otherwise, or if dependents are not authorized. Changes in tour length require Director, DSAA, and Unified Command coordination.

4.2. Deviations. Waivers from the required qualifications and limitations contained herein shall be considered on a case-by-case basis. The Military Services shall submit all requests for waiver concerning the chief of the SAO to the Commander of the Unified Command to obtain concurrence or comment before submission to the Joint Chiefs of Staff (JCS) and the Director, DSAA, for approval. Waivers for all other positions, unless otherwise stated, shall be coordinated directly among the furnishing Military Service, the JCS, the Unified Command, and the receiving organization.

4.3. Selection and Training Requirements for Assignment to SAOs

4.3.1. The furnishing Military Service shall use the approved JMP and the submitted personnel requisition as the basis for selecting and training nominees. It is essential that the Military Services confer with the Manpower and Personnel Directorate (J1), OJCS, to ensure the JMP is accurate, updated, and that no changes are pending. The JMP processing system is described in enclosure 2.

4.3.2. Unified Commands shall ensure that personnel requisitions are submitted to the Military Departments with sufficient lead time, to permit adequate time for the necessary personnel selection and approval process, and to prepare the individual for duty.

4.3.3. Nominations for chief of SAO positions shall be coordinated within DoD channels before seeking comments and concurrence from the Department of State (DoS) and the Chief of Mission.

4.3.3.1. Initial Selection and Nomination. The furnishing Military Service shall select personnel with qualifications as prescribed by the JMP. The selection shall be made with adequate lead time to permit necessary reviewing, coordinating, training, and orienting as required by this Directive, the personnel requisition, and the JMP.

4.3.3.1.1. For the chiefs of SAOs, the furnishing Military Service shall select one or more individuals and obtain Unified Command concurrence or comment. Simultaneously with seeking Unified Command concurrence or comment, an information copy of the nomination shall be sent to the Director, DSAA. After receipt

of Unified Command concurrence or comment, the furnishing Military Service shall submit the nomination, with the Unified Command position, to the JCS. The Secretary, JCS, shall obtain a joint position and forward the nomination, with recommendation, to the Director, DSAA, for approval. On a case-by-case basis, preapproval interviews may be requested by the Director, DSAA, and/or the cognizant International Security Affairs (ISA) or International Security Policy (ISP) office. The Director, DSAA, shall coordinate within OSD and shall submit the nomination to the DoS and the Chief of Mission for concurrence. When notified of the concurrences by the DoS and the Chief of Mission, the Director, DSAA, formally shall approve the nomination and inform the JCS, who then shall advise the furnishing Military Service to implement the nomination.

4.3.3.1.2. For SAO personnel other than the chief, the furnishing Military Service shall select an individual, coordinate the nomination with the Unified Command and the chief of the SAO, and execute approval authority.

4.3.3.1.3. Nomination of officers in the grade of O-7 and above to be assigned chiefs of technical assistance field teams (TAFTs) shall be processed as prescribed for chiefs of SAOs in the grade of O-7 and above.

In addition, personnel should receive briefings and orientation by DoD Components, commensurate with the responsibilities unique to the functions of the security assistance management position to be filled.

4.4.2. Personnel who work part-time on security assistance having little or no effect on security assistance programs, particularly those personnel performing a function related to security assistance that is incidental to their normal duties, normally will not attend the DISAM.
