DISCLAIMER:
This map has been completed using the best information available and is believed to be accurate; however, its preparation required many assumptions. Actual conditions during a flood event may vary from those assumed, so the accuracy cannot be guaranteed. The limits of flooding shown should only be used as a guideline for emergency planning and response action. Actual areas inundated will depend on specific flooding conditions and may differ from the areas shown on the map. Flood-fighting efforts are accounted for in analysis. Effects of the scenario on flooding in the Red River backwater area are not shown.

Information on this map is intended to permit state and local agencies to plan emergency evacuation and flood response actions.
