

CHAPTER 1

OVERVIEW AND INTRODUCTION	1
THE RESEARCH VALUE OF HUMAN BIOLOGICAL MATERIALS.....	1
GENETIC INFORMATION.....	5
GROWING CONCERNS ABOUT THE RESEARCH USE OF HUMAN BIOLOGICAL MATERIAL	6
<i>Concerns about Discrimination and Stigmatization</i>	8
<i>Privacy of Medical Records</i>	9
<i>Moral Status of Bodies and Body Parts</i>	10
<i>Nature of Consent to Research Participation</i>	11
<i>Conflicting Guidance Regarding Research Use of Human Biological Materials</i>	15
ABOUT THIS REPORT.....	16
<i>Framework for Analysis</i>	17
<i>Organization of the Report</i>	17
REFERENCES	19

CHAPTER 2

COLLECTION, STORAGE AND USE OF HUMAN BIOLOGICAL MATERIALS IN THE UNITED STATES.....	22
PART I: COLLECTIONS OF HUMAN BIOLOGICAL MATERIALS	23
<i>Large Tissue Banks, Repositories, and Core Facilities</i>	25
<i>Pathology Specimens</i>	36
<i>Newborn Screening Laboratories</i>	37
<i>Forensic DNA Banks</i>	38
<i>Umbilical Cord Blood Banks</i>	40
<i>Organ Banks</i>	40
<i>Blood Banks</i>	41
PART II: DEFINITIONS AND ORIGINS OF HUMAN BIOLOGICAL MATERIALS	42
<i>Identifiability of Specimens Sources</i>	42
<i>Need to Identify Source for Research or Clinical Purposes</i>	48
PART III: RESEARCH USES OF HUMAN BIOLOGICAL MATERIALS	49
<i>Past Research Use of Human Biological Materials</i>	50
<i>The Value of Human Biological Materials to Cancer Research</i>	51
<i>Screening Human Biological Materials Archives to Track Viruses</i>	53
<i>Human Tissue as a Singular Resource in Brain Research</i>	53
<i>Longitudinal Studies</i>	54
<i>Relying on Stored Materials for Locating Genes</i>	55
<i>Research Requiring Unique Tissue Collections</i>	58
<i>Community-Based Studies to Determine Gene Frequency</i>	59
CONCLUSIONS.....	60
REFERENCES	62

CHAPTER 3

ETHICAL PERSPECTIVES ON THE RESEARCH USE OF HUMAN BIOLOGICAL MATERIALS	67
DIGNATORY HARMS.....	70
OBJECTIONABLE, UNACCEPTABLE, OR QUESTIONABLE RESEARCH.....	71
INVASIONS OF PRIVACY	72
INAPPROPRIATE DISCLOSURES OF CONFIDENTIAL INFORMATION.....	73
STIGMATIZATION	73
INSURANCE AND EMPLOYMENT DISCRIMINATION	74
FAMILIAL CONFLICT AND/OR PSYCHOSOCIAL HARM.....	76
GROUP-BASED HARMS	77

HARMS TO SURVIVORS	78
CONCERNS ABOUT COMMERCIALIZATION.....	79
PROTECTING INTERESTS: THE PARAMETERS OF INFORMED CONSENT	80
CONCLUSIONS.....	82
REFERENCES.....	83
CHAPTER 4	
CURRENT GUIDANCE ON THE USE OF HUMAN BIOLOGICAL MATERIALS IN RESEARCH	84
A BRIEF HISTORY OF HUMAN SUBJECTS PROTECTIONS.....	84
THE SCOPE OF THE CURRENT FEDERAL REGULATIONS	87
INFORMED CONSENT REQUIREMENTS.....	93
EXPEDITED IRB REVIEW	93
IRB CONCERN FOR THIRD-PARTY INTERESTS	94
APPLYING THE REGULATIONS TO A TYPICAL PROTOCOL: ISSUES FOR IRBS	95
PROFESSIONAL STANDARDS.....	98
<i>Definitions: What Does “Identifiable” Mean?</i>	98
<i>When to Require Informed Consent and IRB Review</i>	99
<i>Decisions about the Appropriate Use of Existing Samples</i>	102
<i>Collecting Samples with Appropriate Informed Consent</i>	103
<i>Additional Protections</i>	105
<i>International Perspectives on the Use of Human Biological Materials in Research</i>	107
OTHER CONSIDERATIONS: MEDICAL RECORD PROTECTION AND HUMAN SUBJECTS RESEARCH.....	112
CONCLUSIONS	120
REFERENCES	122
CHAPTER 5	
CONCLUSIONS AND RECOMMENDATIONS.....	124
ACTIVITIES THAT CONSTITUTE RESEARCH	126
CURRENT CRITERIA FOR EXEMPTION FROM THE FEDERAL POLICY FOR PROTECTION OF HUMAN SUBJECTS.....	127
IDENTIFIABILITY OF SAMPLES	130
<i>Unidentifiable Samples</i>	132
<i>Identifiable Samples</i>	134
ISSUES REGARDING MINIMAL RISK AND RIGHTS AND WELFARE	135
<i>Minimal Risk</i>	136
<i>Rights and Welfare</i>	138
CONSENT REQUIREMENTS	140
<i>“Practicability” of Obtaining Informed Consent</i>	140
<i>Informing Individuals about Research</i>	142
<i>“Opt Out” as an Additional Measure of Protection</i>	143
<i>Informed Consent Requirements for the Use of Existing Samples</i>	143
<i>Re-contacting Individuals</i>	147
RENDERING EXISTING IDENTIFIABLE SAMPLES UNIDENTIFIABLE	148
COLLECTION OF HUMAN BIOLOGICAL MATERIALS IN THE FUTURE.....	150
REPORTING RESULTS TO RESEARCH SUBJECTS	151
CONSIDERATIONS OF POTENTIAL HARMS TO OTHERS	152
<i>Risks to Groups</i>	153
<i>Considerations of Risks and Potential Benefits to Relatives of the Sample Source</i>	153
PUBLIC AND PROFESSIONAL EDUCATION AND CONDUCT	155
CONCLUSIONS.....	156
APPENDIX A	
PUBLIC KNOWLEDGE, BELIEF, AND FEELINGS ABOUT RESEARCH USE OF HUMAN BIOLOGICAL MATERIALS	161

APPENDIX B

MEETING DATES, TESTIMONY, ACKNOWLEDGEMENTS..... 167

APPENDIX C

THE COMMON RULE 168
